> BY ORDER OF THE TOWN BOARD OF THE TOWN OF THOMPSON, SULLIVAN COUNTY, NEW YORK

> > Marilee J. Calhoun, Town Clerk

Supervisor Rieber explained the purpose for the public hearing and bonding for the proposed project.

Supervisor Rieber asked if the Board had any comments. No comments were made.

Supervisor Rieber asked if anyone from the public would like to be heard on this matter. The following public comments were provided. <u>Ms. Lois Weinstein</u>, resident of Greentree Vacation Homes expressed her concerns regarding the increased cost per homeowner per user in the district. She said that the sewer bills this year for the Greentree Vacation Homes property owners went up. She asked what the estimated cost for the Greentree Vacation Homes property owners would be as a result of this project. She also asked if there was any way to bill the individual users based on usage or does it have to be the entire community. The flow amounts are different for year-round resident vs. seasonal residents.

<u>Supervisor Rieber</u> said that according to the Map, Plan & Report the estimated cost for the future would be \$2,105.00 per year per home. Supervisor Rieber estimates that the charges would be 2 years out with the project being proposed in 2-Separate Phases. At this time there is only one way of measuring the usage for the entire community. It could be theoretically possible to measure and bill based on flow by metering all homes and have all individual homeowners in the development pay their share.

<u>Ms. Arlene Rubin and Mr. Michael Shecter</u>, residents of Greentree Vacation Homes also expressed concerns regarding increase cost of sewer service vs. water service. No communication from the Homeowners Association (HOA).

<u>Supervisor Rieber</u> advised that the Town has been in contact with the Homeowners Association (HOA) of Greentree Vacation Homes to discuss the inflow & infiltration (I&I) issues coming from the Greentree properties/development going into the Harris Sewer District sewer lines. The Town has inspected and identified some of the issues that need to be addressed, which have been provided to the HOA to resolve those discovered issues. A letter was sent to the Board of Directors of the (HOA). Resolving the current issues could result in a savings on future bills.

<u>Superintendent Michael Messenger</u> provided a status update regarding the current (I&I) issues and a report was provided. Further discussion was held and his contact information was provided to the Greentree property owners that were present.

<u>Ms. Janine Materna</u>, resident of Greentree Vacation Homes said that this is the first time that she is hearing of sewer issues; she asked if there is documentation identifying the problems and the estimated costs to fix the issues.

<u>Superintendent Messenger</u> provided a more detailed update regarding the specific issues and problems that there are involving Greentree Vacation Homes. There are several leaks, which are resulting in ground water filtrating into the sewer system.

<u>Ms. Janine Materna</u> also asked if there is any potential of government funding available or could the costs be subsidized by the government.

<u>Superintendent Messenger</u> said that typically for private developments no, but he suggested that the Board of Directors of their (HOA) look into those possibilities.

<u>Ms. Jennifer Materna</u>, resident of Greentree Vacation Homes asked if they can make the sewer system public vs. private. She also asked if there is a way to reduce cost vs. increase cost.

<u>Supervisor Rieber</u> said that the homes are too close together for private individual septic systems and that there would not be enough room to construct them.

<u>Superintendent Messenger</u> commented on how to reduce cost. The estimated cost of \$2,105.00 was determined based on the current flows including the present issues, but if those leaks/issues are resolved, then the flows would be reduced. He said that when flow reduces the price per gallon reduces, which would reduce the overall cost. He further explained the purpose for this hearing and what the bonded project funds would be used for.

<u>Supervisor Rieber</u> advised that he has contacted the Board of Directors for the (HOA) to explain the situation in detail. The Town has been willing to try and help in regards to resolving the issues.

<u>Ms. Lois Weinstein</u> asked what the procedure is for the decision and approval on the proposed project.

<u>Supervisor Rieber</u> explained the procedure for Public Interest Order and Bonding Approval in order to move forward with the proposed project. He said that this action is subject to a 30-Day Permissive Referendum. He also explained the reason for the necessary improvements, which are subject to NYS DEC Consent Orders. He advised that after the public hearing the Bonding Resolution would be a Town Board decision and vote to either approve or deny on behalf of the Harris Sewer District.

<u>Superintendent Messenger</u> also advised that the Town has submitted grant funding applications and are trying to secure USDA low cost funding, which could reduce the estimated cost of the project, but total bonding approval is still required whether the entire cost will be needed or not. Hopefully the total cost that the Town will have to secure will be significantly less than estimated.

<u>Supervisor Rieber</u> also commented on the potential grant funding sources and if they are secured. At that time the Town might look to their Board of Directors of the (HOA) obtain supporting letters for the grant funding since they do not like to see high individual costs per home.

<u>Ms. Jennifer Materna</u> asked the Town to provide suggestions to bring back to the Board of Directors of the (HOA) on how to reduce the cost moving forward.

<u>Supervisor Rieber</u> suggested that the Board of Directors of the (HOA) should be encouraged to fix the leaks and current filtration issues to reduce the flows. Ms. Materna was also advised to contact Superintendent Messenger to discuss further suggestions and to obtain any requested information.

After an opportunity for all persons to be heard Supervisor Rieber entertained a motion that the public hearing be closed.

A motion to close the Public Hearing at 7:31 PM was made by Councilman Mace and seconded by Councilman Schock. All voted in favor of closing the public hearing.

The regular meeting was reconvened at 7:32 PM.

The Town Board of the Town of Thompson, by resolution duly adopted at a regular meeting thereof, held on the 15th day of November, 2016, did determine that Extension No. <u>07</u> of the Cold Spring Road Sewer District in the Town of Thompson, will not have a significant effect on the environment.

2. Lead agency for such project is the Town Board of the Town of Thompson, whose address is 4052 Route 42, Monticello, New York 12701, the designation of which was accomplished by resolution duly adopted at a regular meeting of the Town Board held on the 15<sup>th</sup> day of November, 2016.

3. The person to contact for further information is Supervisor William J. Rieber, Jr., whose address is 4052 Route 42, Monticello, New York 12701, telephone number 845-794-2500.

4. The proposed extension of the Cold Spring Road Sewer District enables Leisure Acres Summer Homes LLC to become part of the said district and to use the facilities of the Cold Spring Road Sewer Treatment Plant for the disposal of its sewage, the cost thereof being borne solely by the said property owner.

5. The basis for the negative declaration is as follows: that the administration and operation and maintenance of the sewer facilities and the use thereof by Leisure Acres Summer Homes LLC will not violate any of the criteria for determining environmental significance as set forth in Part 617 of the Regulations.
