Monticello, NY 12701

Dear Planning Board,

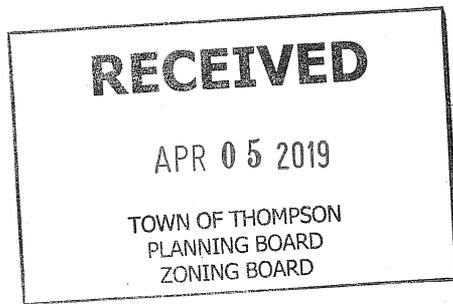

We ask you to relocate the proposed cell tower location that is slated for installation off of Wurtsboro Mountain Road near Exit 110 in Rock Hill, NY. Our house is less than 1,000 feet from the proposed location. The view that we have paid for and cherish will be destroyed. Our home value will be severely lowered.

The proper location for this cell tower would be along Route 17, just west of the village of Rock Hill. This is an industrial area that will not negatively impact on residents.

Lake Wanaksink has been preserved for generations by home owners who value nature and tranquil mountain views. We are united in opposing the proposed cell tower site.

Sincerely,

Marlene Rhodes, Philip S Rhodes

RE: Tarpon Cell Tower Application off of Wurtsboro Mountain Road

Dear Town of Thompson Planning Board Members,

I understand that the Planning Board has requested the applicant to conduct a balloon test in the Wanaksink Lake area to better evaluate the visual impacts of the proposed cell tower on our community. I urge the Planning Board to hold another public hearing after the balloon test results are received to allow discussion of them. Please also see my attached letter explaining my perspective on the visual impacts of the proposed tower site.

Sincerely,

RE: Tarpon Cell Tower Application off of Wurtsboro Mountain Road

Dear Planning Board Members,

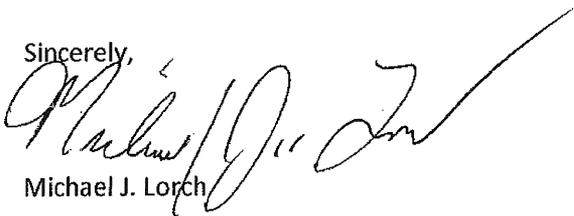

As someone who treasures my views at Wanaksink Lake, I'd like to let you know that I am very concerned about the visual impact that the proposed cell tower site will have not only on me, but on my family, friends and neighbors.

My summer residence is at 131 South Lake Road, a property that I have been coming to for 55 years and one that has been in my family since the 1940's. My family and I enjoy the serenity of the lake and the peaceful and gorgeous views from our dock.

If built, the proposed cell tower will loom over our lake and skyline and will ruin the views from our dock and our yard when we face westward. Instead of enjoying beautiful sunsets in the evenings as we sit on our dock, we will now be faced with a hideous view of a commercial tower. It ruins the views, the experience and the natural setting we value so much.

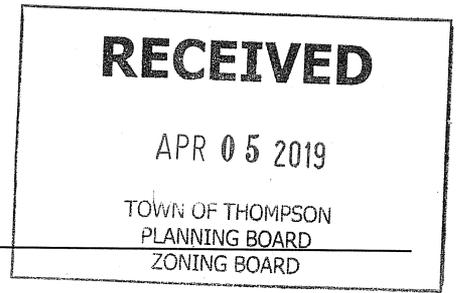

Surely there must be an alternative site in Rock Hill for this tower that does not destroy sightlines and property value for residents at both Wanaksink Lake and Lake Louise Marie. Please take this into consideration in your evaluation of the visual impacts of the proposed cell tower.

Sincerely,

Michael J. Lorch

Re: Schedule public hearing regarding Tarpon cell tower after balloon test

Dear Planning Board Members,

I understand the planning board has requested Tarpon cell tower company conduct a balloon test in the Wanaksink Lake area. This will better evaluate the visual impacts the proposed cell tower will have on our Wanaksink Lake community. We kindly urge the planning board to schedule another public hearing after the balloon tests results are in to properly discuss the results.

Please see attached letter of concern regarding the visual nightmare this proposed site has on the Wanaksink Lake community.

Sincerely,

A handwritten signature in black ink, appearing to be "B Mancroni", written in a cursive style.

Re: Tarpon Cell Tower Application off of Wurtsboro Mountain Road

Dear Planning Board Members,

I am writing to you to let you know that I am very concerned about the negative visual nightmare the proposed cell tower site has not only on me but also on my friends , entire family and anyone who travels on Rte 17 and Wurtsboro Mountain Road both east and west bound.

I live at 164 South Lake Road and have been enjoying our pristine historical lake for over 50 years. My grandparents were one of the first to "get away from city life" and enjoy the natural beauty of our lake.

The Proposed cell tower looming over our lake ruins the beautiful views, the beautiful sunsets, natural beauty of our lake, ruins sunset cruises in our boats, canoes, kayaks, and paddle boards. And most of all, our pictures.

Please take into consideration in your evaluation, the negative visual nightmare this proposed 184' cell tower will have looming at least 124' over the tree line. Height restrictions are put in place for a reason. Every time I step out of my house and travel to and from work. Or happen to go anywhere for that matter, I will have to look at that metal nightmare.

Placing an eye sore on an already existing eye sore is more appropriate. Please do not fall prey to their half truths regarding location and little visual impacts. Please have them find another site where it won't be as visual.

Sincerely,

Barbara Mancroni
