RE: Tarpon Cell Tower Application off of Wurtsboro Mountain Road

Dear Town of Thompson Planning Board Members,

I would like to register my dismay at the severe impact that the proposed cell tower will have on my views and enjoyment of our home at Wanaksink Lake.

112 Middletown Point Road → 73 years

We have owned our home at ~~123 XXX Rd.~~ on Wanaksink for xx years. One of the reasons we return is the natural beauty of the site and of the lake overall. Because the Club is so restrictive about the cutting of trees, the wooded perimeter appears nearly undisturbed. Our children are so attached to it that they vacation with us there every year.

If the weather is good we either sit on our porch or go down to the dock to see the sunset every evening. We are out on and around the lake all the time during the summer, and would not want a cell tower literally towering over us all day and everywhere.

Although there were no photographs of the impact on Wanaksink in the Verizon application, I'm happy that you asked that balloon photos be taken so that you will be aware of how seriously the current proposed tower site will affect our community. And that you will consider other sites to provide better cell service to the Rock Hill community.

When the new photographs are available, we urge that you hold another public hearing to allow discussion of the balloon test results.

Sincerely,

Carl + Marie Dallmecher
