RE: Cell Tower

Dear Town of Thompson Planning Board Members,

I understand that the Planning Board has requested the applicant conduct a balloon test in the Wanaksink Lake area to better evaluate the visual impacts of the proposed cell tower on our community. I urge the Planning Board to hold another public hearing after the balloon test results are received to allow discussion of them. Please also see my attached letter explaining my perspective on the visual impacts of the proposed tower site.

I trust there are other sites, in the Rock Hill area that are less intrusive and disruptive to the community. Please take this into consideration in your evaluation of the visual impacts of the proposed cell tower.

Sincerely,

Robert J. Whitaker

RE: Tarpon Cell Tower Application off of Wurtsboro Mountain Road

Dear Planning Board Members,

As someone who treasures my views at Wanaksink Lake, I'd like to let you know that I am very concerned about the visual impact that the proposed cell tower site will have not only on me, but on my family and friends.

I am a lifelong resident of Sullivan County. My home is at 39 Middletown Point Rd on Wanaksink Lake. My wife and I have bought our home in Oct 2018 because we were looking forward to the serenity of the lake and the beautiful views. We looked at numerous homes in various lake communities throughout Sullivan County but fell in love with this community and the natural setting.

Put simply, if built the proposed cell tower, looming over the lake and skyline will ruin our views, from our dock, from our wrap around lakeside porch and out our windows, which almost all face westward. Instead of enjoying beautiful sunsets in the evenings as we sit on our porch and deck, we will now be faced with a hideous view of a commercial tower. It ruins the views, the experience and the natural setting I live in.

Please take this into consideration in you evaluation of the visual impacts of the proposed cell tower. I trust there are other sites that will not compromise the beautiful setting of our community.

Sincerely,

Robert J Whitaker

RE: Tarpon Cell Tower Application off of Wurtsboro Mountain Road

Dear Planning Board Members,

As someone who treasures my views at Wanaksink Lake, I'd like to let you know that I am very concerned about the visual impact that the proposed cell tower site will have not only on me, but on my family and friends.

We have recently purchased our Dream Lake Home in Oct 2018. We decided on this home on the lake because of the beautiful skyline views and the natural setting. We have both worked hard all of our lives and was so looking forward to sitting on the dock with family and friends in the evening enjoying the beauty of nature. The proposal of a hideous commercial tower looming over the skyline becomes an eyesore for all the residents in the area.

I trust there are other sites in the Rock Hill area that are less intrusive and disruptive to the community. Please take this into consideration in you evaluation of the visual impacts of the proposed cell tower.

Sincerely,

Eileen M. Conway-Whitaker
