A. Definitions. As used in this article, the following terms shall have the meanings indicated:

CONSOLIDATED HARRIS SEWER DISTRICT – As previously constituted, has within its bounds all premises and buildings or structures and subject parcels currently existing in the formerly established Harris Sewer District, Dillon Farms Sewer District and Cold Spring Road Sewer District, and a number of other parcels of vacant or unimproved land.

### §194-40. Rents to constitute lien.

Sewer rents shall constitute a lien upon the real property served by the sewer system or such part or parts thereof for which sewer rents are hereby established and imposed. The estimated annual charge for the ensuing year shall be based upon operating data from the previous year, unless another formula for the computation of said rate is provided for in Subsections A, B and C hereof. The estimated annual charge for a given year shall adjusted to an actual charge by the Town Board during the following year when the actual operating data is available for that year. Unless otherwise provided for herein, the payment of the amount set forth in the annual statement for each year shall be made within 30 days of the date of the mailing of the statements to the property owner without discount or penalty. A penalty of 5% of the amount of the sewer rent statement shall be added thereto after the thirty-day period, if unpaid, and  $\frac{1}{2}$  of 1% for each additional month that the sewer rent remains unpaid.

The Town Board shall levy the amounts as so adopted against the real property liable at the same time and in the same manner as Town taxes, and such amounts shall be set forth in the annual tax rolls.

(1) Included costs; cost allocation. The sewer rents for the Consolidated Rock Hill/Emerald Green Sewer District shall be based on the capital cost of the Emerald Green-Lake Louise Marie sewer plant, excluding the Emerald Green-Lake Louise Marie Sewer District collection system and the capital costs of the former Rock Hill Sewer District, if any; and on the operation and maintenance cost allocated to the former Emerald Green-Lake Louise Marie Sewer District sewer plant, excluding the former Emerald Green-Lake Louise Marie Sewer District collection system and the operation and maintenance cost of the former Rock Hill Sewer District. The allocation of such capital cost and operation and maintenance charges shall be based on a reasonable determination of the Town Board.

(2) Minimum charges. The Consolidated Rock Hill/Emerald Green Sewer District residential properties, and commercial properties having a building square foot area of less than 2,500 square feet, shall pay a minimum charge for 90,000 gallons annually. All other commercial properties shall have a minimum charge for 180,000 gallons annually. The Sewer and Water Superintendent may require the installation of a meter where the Sewer and Water Superintendent believes that the usage of a particular unmetered property exceeds such annual minimum for such property for a test to determine actual usage, and thereafter shall require the installation of such meter on a permanent basis, if after such test usage exceeds or is reasonably expected to exceed such minimum amount on a continuing basis.

(3) Connections. Residential properties located with the Consolidated Rock Hill/Emerald Green Sewer District which are serviced by lawfully operating private sewer systems shall not be required to connect to the Consolidated Rock Hill/Emerald Green Sewer District system. All properties which require sewer service after the formation of the Consolidated Rock Hill/Emerald Green Sewer District and properties which are not required to connect to the Consolidated Rock Hill/Emerald Green Sewer District system that would require a building permit to restore an existing private sewer system to lawful operating condition shall be required to connect to the Consolidated Rock Hill/Emerald Green Sewer District system. All commercial properties shall be required to connect to the Consolidated Rock Hill/Emerald Green Sewer District system. All commercial properties shall be required to connect to the Consolidated Rock Hill/Emerald Green Sewer District system.

(4) Meters. The property owner shall provide a water meter acceptable to the Consolidated Rock Hill/Emerald Green Sewer District for the purpose of measuring water usage for sewer district charges. The Town Board by resolution may determine the percentage of actual usage of water for applicable sewer district

charges based on total water usage compared to treated usage. Meters installed for a test shall be a charge to the district.

(5) Costs. The costs and flows of the Consolidated Rock Hill/Emerald Green Sewer District shall be determined by the flows for the most recent complete calendar year of service prior to imposition of such charge. If any agreement governs the application of a charge, such agreement shall apply.

(6) All other applicable provisions of this chapter shall apply.

### §194-48. Review and revision of costs and charges; effect on existing agreements.

A. The Town shall annually review the total cost of operation and maintenance of the treatment works and revise the charges in order to accomplish the following:

(1) Generate sufficient revenue to pay the total operation and maintenance costs necessary to the proper operation and maintenance, including replacement, of the treatment works; and

(2) Apply excess revenues collected to the cost of operation and maintenance for the next year and adjust the rate accordingly.

- B. The annual bill shall give a breakdown of the rate and portion of the charges attributable to wastewater treatment services.
- C. The system and scale of charges established by the Town Board hereunder shall take precedence over any agreements or contracts and the terms and conditions thereof now in existence between the Town and users (including industrial users, special districts, other municipalities or federal agencies or installations) which are inconsistent with the provisions of this article.

### §194-49. Disposition of revenue.

A. Revenue derived from sewer rents, including penalties and interest, shall be credited to a special fund, to be known as the "Sewer Rent Fund", for and in the name of each of the Town's sewer districts. Moneys in such fund shall be used in the following order:

(1) For the payment of the costs of operation, maintenance and repairs of the sewer system, or such part or parts thereof for which sewer rents have been established and imposed.

(2) For the payment of interest on and amortization of, or payment of, indebtedness which has been or shall be incurred for the construction of the sewer system or such part or parts thereof for which sewer rents have been established

and imposed (other than indebtedness, and the interest thereon, which is to be paid in the first instance from assessments upon benefited real property).

(3) For the construction of sewer treatment and disposal works with necessary appurtenances, including pumping stations, or for the extension, enlargement or replacement of, or additions to, such sewer systems, or part or parts thereof.

B. Such revenues from sewer rents shall not be used to finance the cost of any extension of any part of a sewer system (other than any sewage treatment and disposal works with necessary appurtenance, including pumping stations) to serve unsewered areas if such part has been constructed wholly or partly at the expense of real property especially benefited or for the payment of the interest on and the amortization of, or payment of, indebtedness which is to be paid in the first instance from assessments upon benefited real property.

### §194-50. Rents to constitute a lien.

Sewer rents shall constitute a lien upon the real property served by the sewer system or such part or parts thereof for which sewer rents are hereby established and imposed. The lien shall be prior and superior to every other lien or claim, except the lien of an existing tax assessment or other lawful charge imposed by or for the State of New York or political subdivision or district thereof.

### §194-51. Cooperation of owners of real property.

The Sewer and Water Superintendent may require every owner and/or occupant of real property within the Sewer District to furnish him with such information as may be necessary and reasonable in order to carry out the provisions of this article. It shall be permissible for the Sewer and Water Superintendent or other properly authorized person employed by the Sewer District to enter upon real property at reasonable times for the purpose of obtaining such information as may be necessary to carry out the provisions of this article.

### §194-52. Collection authority.

The Town Board of the Town of Thompson shall have the authority to collect sewer rents as provided in Subdivisions 3 and 4 of §452 of the General Municipal Law.

- 2. Except as herein specifically amended, the remainder of Chapter 194 of such code shall remain in full force and effect.
- 3. If any clause, sentence, paragraph, subdivision, section or part thereof this local law shall be adjudged by any court of competent jurisdiction to be invalid, such judgment, decree or order shall not affect, impair or invalidate the remainder thereof but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part thereof directly involved in the controversy in which such judgment, decree or order shall have been

Town Board Meeting August 17, 2021 Page 18 of 28 rendered and the remainder of this local law shall not be affected thereby and shall remain in full force and effect.
