STATE OF NEW YORK COUNTY OF SULLIVAN
TOWN OF THOMPSON

.....
In the Matter of the Incorporation of the

VILLAGE OF ATERES

Pursuant to Article 2 of the Village Law
.....

TO: Town Supervisor, Town of Thompson
Town Supervisor, Town of Fallsburg

OBJECTION TO PETITION *Amended*
BY TOWN OF THOMPSON RESIDENT

Pursuant to Article 2 of the Village Law of the State of New York and related laws cited hereafter, this constitutes my objections to the above captioned Petition.

Name of Objector: Ronald G. Hiatt
Address: 154 Clearwater Drive, Monticello, NY 12701
Voting Status: I am a registered voter qualified to vote
in the Town of Thompson

I submit these objections solely as a resident and qualified voter in the Town of Thompson.

Objection to the Petition:

1. Section 2 206 of the New York Village Law Incorporation requires that "the petition is submitted on the basis that the persons signing such petition constitute twenty percent of the residents in such territory qualified to vote for officers of the town in which all or part of the territory is located.
2. It is respectfully submitted that the petition does not contain that 20% number. (see schedule A attached hereto)
3. Section 2-206 1. A requires that a ground for objection is that "a person signing was not qualified therefor" See again Schedule A. It is clear from the notes in schedule A that a plethora of individuals were clearly not qualified by reason of address not match registration, not being registered, etc.
4. Because they are not qualified the resultant number falls short of the 20% required by statute and fails as a matter of law.
5. Further Section 2-206 1. G. states objection can be further made if the petition does not conform to the requirements of this article. Section 2-202 1. e. (4)

Authentication mandates that the authentication at the bottom of each page must include the number of signatures on each page (to prevent signature being added unofficially after the authentication witness signs). A review of the very first page of the petition shows that no such number of signatures were noted, thus voiding the entire page. (see *Esse v. Chiavaroli* (4th Dept. 1979, 71 AD2d1046)

6. Further, State Board of Elections Rules and Regulations, Rules for filing designating and nominating petitions, 6215.1 (a) requires that "the sheets of a petition shall be numbered sequentially at the foot of each sheet. Here, there are *no* numbered pages at all. Therefore, the pages are invalid on their face. Observe Objector's Schedule A- it is difficult to determine to which pages the objections relate without laboriously counting the pages one by one. There is good reason the statute requires pages to be numbered and here the petition fails again.
7. Besides these technical statutory requirements, I am compelled to address the ENVIRONMENTAL EFFECTS present. And it is here that I refer to Schedule B, the prior statement previously presented by the late Attorney Samuel S. Yasgur, as it relates to the environment.
8. I include and adopt his statement for two reasons: one, because I wish to give him full credit for the contents and two, because I don't think I could have presented it better, myself.
9. I cannot underscore the potential environmental impacts that could be visited upon this small community if another Kiryas Joel type project were to be created here. This is so even just for the water issue alone. I spent over two decades as the attorney for the Town of Fallsburg Planning and Zoning Boards and I am familiar with numerous property owners within that Town. I can assert with certainty that in parts of that Town the water pressure is so low that warnings have been given that continued expansion can well overstress the system.
10. If ever there were a need for a JOINT SEQRA review of such a development it is certainly called for in the case of a Village of Ateres. Please review the late Attorney Yasgur's statement, attached hereto and made a part hereof. (Schedule B) Since both the Town of Fallsburg and the Town of Thompson would be affected by the creation of this Village and since both Towns have experienced Boards who could conduct an even handed and professional SEQRA review, they should be required to do so before the creation of such a village is approved for the protection of all concerned, including the applicants.
11. OF EQUAL CONCERN IS THE NATURE AND COMPOSITION OF THIS NEW VILLAGE. If one were to look at the map of the proposed village (Exhibit C), one can see that the major population base is contained within approximately 5% of the whole property. It concerns me that the notice requirement for a village is woefully inadequate for the individuals who live in the other 95%. Posting a notice in the newspaper and on five separate places within the district as required, I respectfully assert is simply inadequate.
12. This is tantamount to a Zone Change. Whenever notice is required for

a zone variance everyone even within hundreds of feet of the change is given notice in a more direct manner. Here it is clear that this zone change is occurring to an unsuspecting public.

13. What is more disturbing, is where we know ahead of time that the greater majority of voters live in 5% of the proposed district, then those who live in the other 95% will be effectively *disenfranchised*.
14. It is hornbook law and a basic of our American system that people ought to be given some reasonable notice of impending laws that might affect them and also be given an opportunity to be heard. I am certain that is not the case here. If people know that there is a possibility of a Kiryas Joel coming to their neighborhood and that their vote will be undermined in advance, I firmly believe they ought to be given some real and honest notice, as a matter of right.
15. Finally, I would respectfully refer your attention to the final weighty thoughts and suggestions raised by Attorney Yasgur as set forth in Exhibit B.
16. Thank you for the opportunity to be heard.

Respectfully submitted,

Ronald G. Hiatt

STATE OF NEW YORK: COUNTY OF SULLIVAN
TOWN OF THOMPSON

-----X
In the Matter of the Petition for the Incorporation of the :
VILLAGE OF ATERAS :
Pursuant to Article 2 of the Village Law. :
-----X

TO: TOWN SUPERVISOR, TOWN OF THOMPSON

OBJECTIONS TO PETITION
BY TOWN OF THOMPSON RESIDENT

Pursuant to Section 2-206 of the Village Law of the State of New York this constitutes my objections to the above captioned Petition.

Name of Objector: Samuel S. Yasgur

Address of Objector: 21 Kent Street, Rock Hill, N.Y.

Voting Status: I am a registered voter qualified to vote in Town of Thompson elections.

Statement of Interest:

I submit this objection solely as a resident and qualified voter in the Town of Thompson. I DO NOT submit these objections on behalf of any entity or group. These objections are solely my own.

Objections to the Petition:

1. It is manifest from the Petition itself that such territory does not contain at least five hundred "regular inhabitants" as that term is defined by law:

- A. Village Law, Section 2-200(1), requires that the territory to be incorporated as a Village must contain at least five hundred "regular inhabitants".
- B. Village Law, Section 2-200(2), provides that two classes of persons shall NOT be counted in determining whether the minimum number of five hundred regular inhabitants has been met:
- i. persons who maintain a residence outside of the described territory which is used as their address for the purpose of voting, and
 - ii. persons who are under the age of eighteen who reside with persons who maintain a residence outside of the described territory which is used as their address for the purpose of voting.
- C. The Appendix to the Petition contains twelve pages of names entitled "Census Village of Ateras".
- D. Nowhere in the aforesaid Appendix, nor anywhere in the Petition, is there an allegation that none of the voting age persons listed in the Appendix maintain a residence, outside of the described territory, which is used as an address for the purpose of voting.
- E. Nowhere in the aforesaid Appendix, nor anywhere in the Petition, is there an allegation that none of the persons under eighteen years of age who are listed in the Appendix reside with persons who maintain a residence, outside of the described territory, which is used as an address for the purpose of voting.
- F. It is patently clear from the addresses set forth in the Petition that the Petitioners are attempting to avoid the statutory requirement of Village Law, Section 2-200(2) with respect to persons under the age of eighteen years.
- i. Approximately 267 of the names on the Petition all have the same address, i.e., "168 Yeshiva Road, a/k/a/ Yeshiva Drive, Kiamesha Lake, New York.
 - ii. Upon information and belief the structure located at that address is a school.
 - iii. Upon information and belief most if not all of the persons attending that school are less than eighteen years of age.

iv. The fact that most if not all of the persons listed as residing at 168 Yeshiva Rd. are under the age of eighteen is confirmed by the Signature Pages appended to the Petition. Those pages contain just seventeen names. According to the top of those two signature pages those seventeen persons constitute "... at least twenty percent of the residents of the territory herein proposed to be incorporated as a village, qualified to vote for officer in the town ...". Seventeen is twenty percent of eighty five. By saying that seventeen persons constitute "... at least twenty percent ..." of the qualified voters in the described territory, those seventeen signers are affirming that there are only eighty five or FEWER qualified voters in the described territory and that all of the other persons are either not qualified to vote in the described territory or are under eighteen years of age. Indeed, I am informed and believe there may be fewer than forty five qualified voters in the described territory.

- G. There can only be one reason for listing the school address for the aforesaid 267 person, i.e., that the parents or legal guardians of the persons listed as residing at 168 Yeshiva Rd. maintain residences outside of the described territory which are used for the purpose of voting. Were that not the case the Petition clearly would have listed the address of the parent or legal guardian with respect to each person under the age of eighteen years.
- H. Accordingly, from the face of the Petition itself it is manifest that the Petitioners have not met the statutory requirements.

2. The Petitioners have not complied with the State's Environmental Quality Review Act.

- A. According to the reports in the press the sole purpose of those proposing to create the Village of Ateras is to change the zoning code so as to permit a greater population density. According to the press reports those proposing to create the Village of Ateras have said that they will contract with the Town for all services.
- B. The filing of the Petition is an action designed to have an impact on population density in a designated area within the Town. It is, therefore, an action which is designed to have an environmental impact.
- C. Given the stated purpose of those who seek to create the Village, the filing of the Petition should be viewed no differently than the filing of an application by a developer who seeks to create a new high density zone

within the Town. In other words, it is an action which itself requires compliance with SEQRA.

D. I appreciate that those proposing to create the Village may say that they will comply with SEQRA after the incorporation of the Village and when they seek to establish their own zoning requirements. I respectfully submit that would be too late and that it would violate the requirements of SEQRA.

- i. The proposed change in density within the proposed village would have an immediate and direct impact on the remainder of the Town.
- ii. For that reason the Town, if not an even more regional entity, should be the lead agency and should make the final decision with respect to the environmental impacts.
- iii. Nothing presently prevents the residents of the described area from seeking to have the Town revise the density provisions in that described area, and to do so in a manner consistent with SEQRA and with the interests of the remainder of the Town.
- iv. It is patent that the purpose for creating the village is to be able to increase density in that one area without regard to the interests of the remainder of the Town.
- v. If the proposed village was to be created the village, and not the Town, would be the lead agency with respect to its own proposed zoning, zoning which would increase population density and which would, as a direct result, affect the remainder of the Town.
- vi. Since those seeking to create the new village have made it clear that their purpose is to create higher density zoning, and since everyone in the described area appears to be a part of a single group having a single purpose, it must be assumed that any environmental review which might be done by the new village would not adequately consider the environmental interests of the remainder of the Town. The village is being created for one purpose and it must be assumed that the incorporators of the village would pursue that purpose with vigor, whether or not that purpose is consistent with the interests of the remainder of the Town.

- E. Accordingly, the Petition should be returned as untimely with instructions that the Petitioners to comply with SEQRA before resubmitting the Petition.

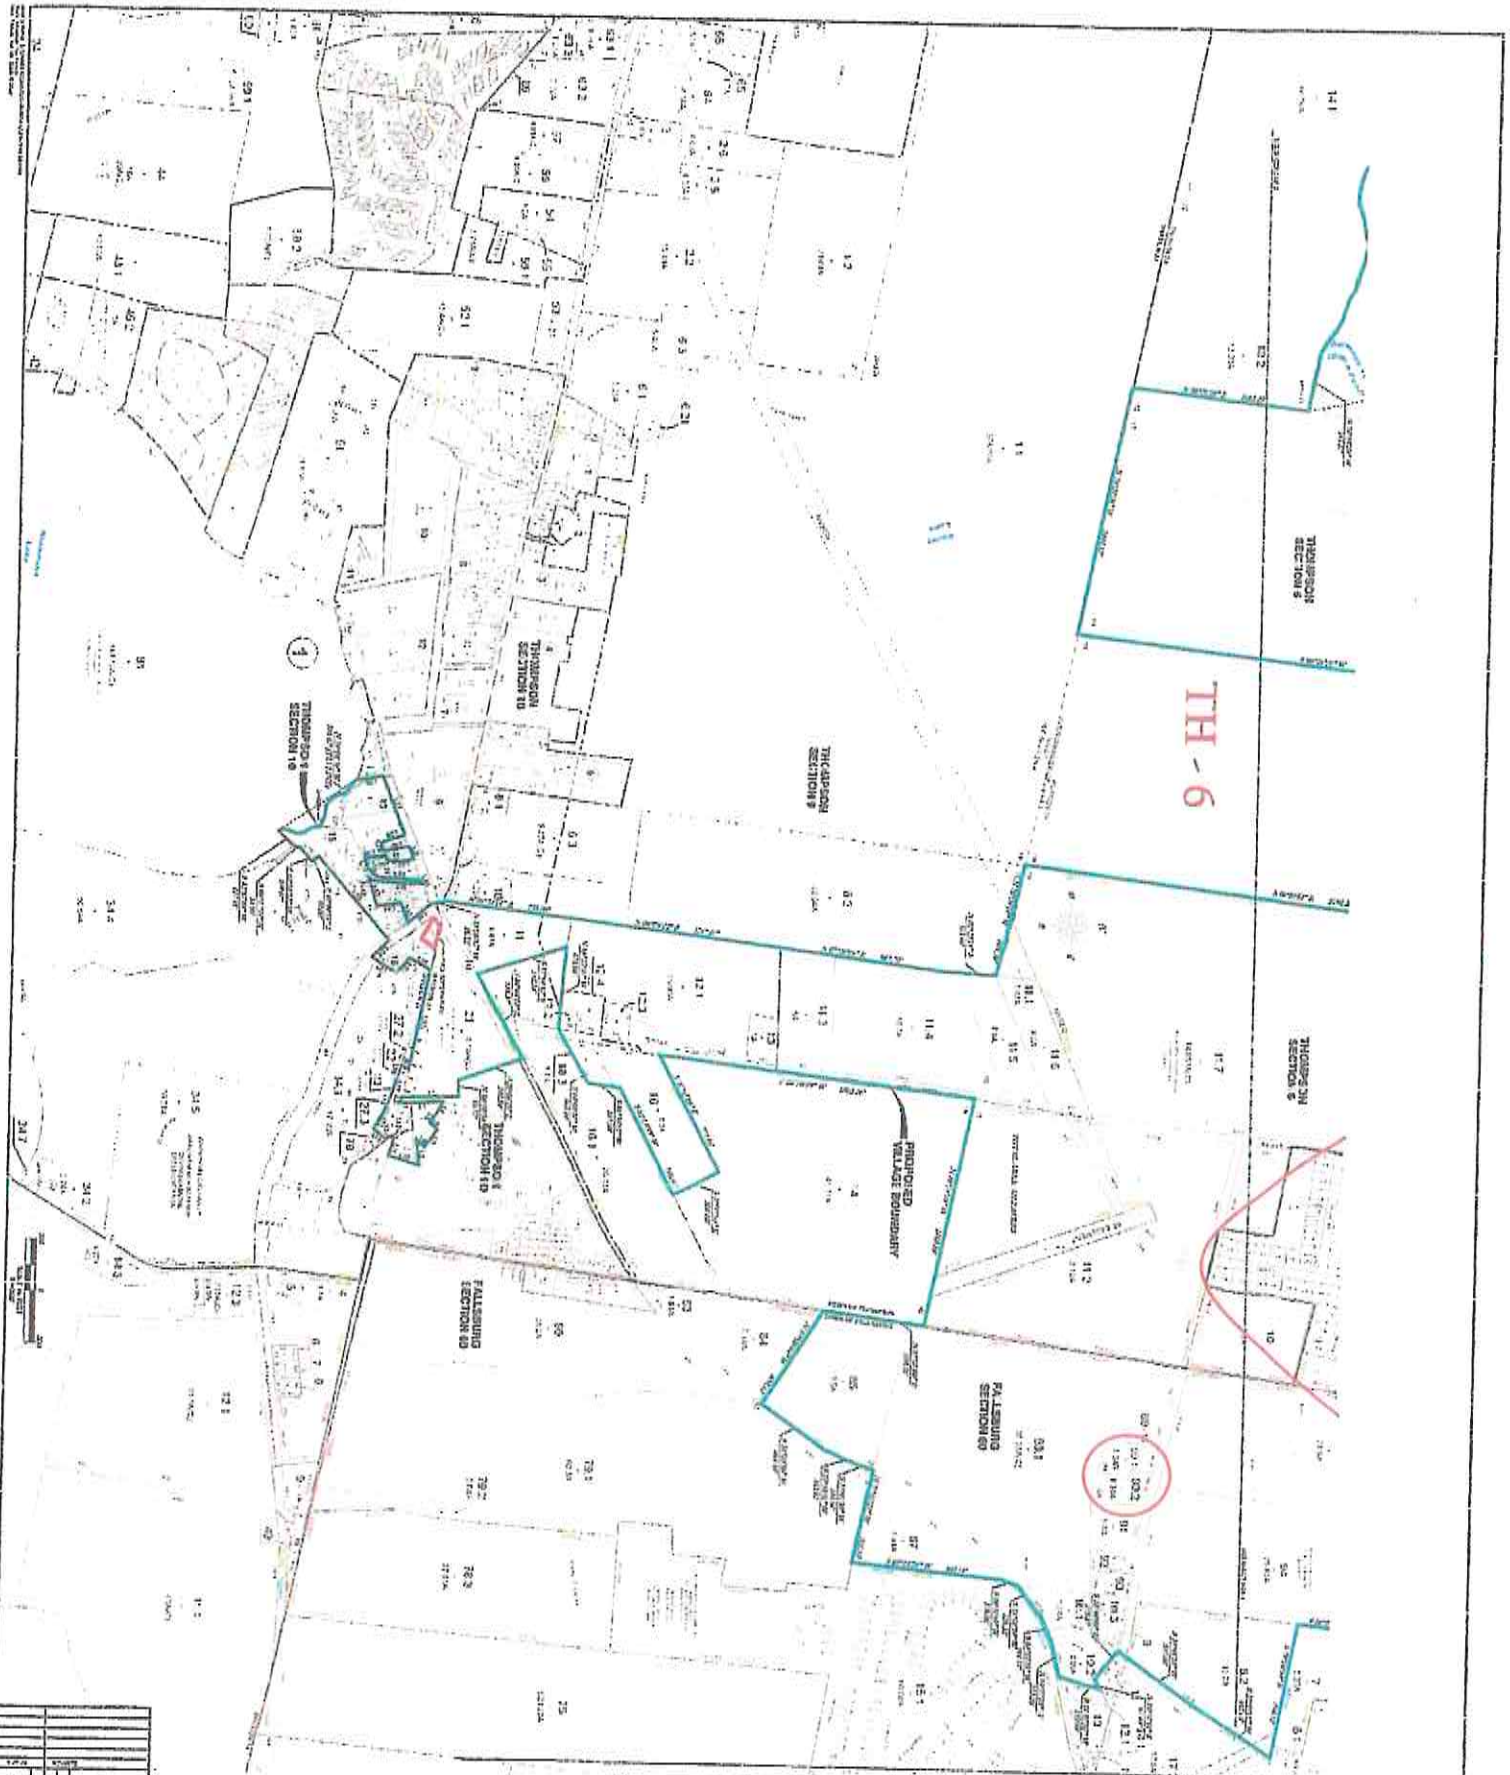

General Comments:

Aside from the specific objections set forth above, I respectfully submit the following:

1. Over the life of this nation incalculable human and material resources have been expended to prevent separatism and exclusion.
2. As a people we have been committed, albeit with some exceptions, to insuring that our governmental entities and institutions are independent of dominance by any religious group.
3. Justifying a municipal entity based on a commonality of religion or some other social criteria might seem acceptable if the underlying community is one which is viewed as desirable or benign. However, what does one then do when the underlying community of persons is not benign? What if a petition is received tomorrow from 500 "regular inhabitants" of an area seeking to become a village and it is discovered that all 500 are members of an organization, or subscribe to a philosophy, which most would consider racist, or anti-Catholic, or anti-Jewish, or anti-Muslim, or anti-American. Under the current provisions of the Village Law it might appear that such a group would have a right to incorporate as a village.
4. I submit the current provisions of the Village Law should be changed to at least require a town-wide if not a county-wide referendum before a new village is created.
5. I recommend that the Town Board take a leadership role in proposing such an amendment to our state representatives.
6. I also submit that unless such changes, at a minimum, are made, the Town and the County could wind up pockmarked with scores of specialty, separatist villages, created on cultural, religious, ethnic, racial or other some other basis antithetical to a heterogeneous, pluralistic society.
7. I submit the Town Board should use its best efforts to promote equality and inclusionism, and to resist separatism.

Respectfully submitted,

Samuel S. Yagur

STATE OF NEW YORK COUNTY OF SULLIVAN
TOWN OF THOMPSON

.....
In the Matter of the Incorporation of the

VILLAGE OF ATERES

Pursuant to Article 2 of the Village Law
.....

TO: Town Supervisor, Town of Thompson
Town Supervisor, Town of Fallsburg

OBJECTION TO PETITION
BY TOWN OF THOMPSON RESIDENT

Pursuant to Article 2 of the Village Law of the State of New York and related laws cited hereafter, this constitutes my objections to the above captioned Petition.

Name of Objector: Ronald G. Hiatt
Address: 154 Clearwater Drive, Monticello, NY 12701
Voting Status: I am a registered voter qualified to vote
in the Town of Thompson

I submit these objections solely as a resident and qualified voter in the Town of Thompson.

Objection to the Petition:

1. Section 2 206 of the New York Village Law Incorporation requires that " the petition is submitted on the basis that the persons signing such petition constitute twenty percent of the residents in such territory qualified to vote for officers of the town in which all or part of the territory is located.
2. It is respectfully submitted that the petition does not contain that 20% number. (see schedule A attached hereto)
3. Section 2-206 1. A requires that a ground for objection is that "a person signing was not qualified therefor" See again Schedule A. It is clear from the notes in schedule A that a plethora of individual were clearly not qualified by reason on address, not being registered, etc.
4. Because they are not qualified the resultant number falls short of the 20% required by statute and fails as a matter of law.
5. Further Section 2-206 1. G. states objection can be further made if the petition does not conform to the requirements of this article. Section 2-202 1. e. (4)

Authentication mandates that the authentication at the bottom of each page must include the number of signatures on each page (to prevent signature being added unofficially after the authentication witness signs). A review of the very first page of the petition shows that no such number of signatures were noted, thus voiding the entire page. (see *Esse v. Chiavaroli* (4th Dept. 1979 71 AD2d1046)

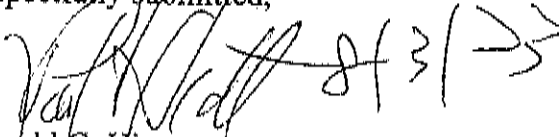

6. Further, State Board of Elections Rules and Regulations, Rules for filing designating and nominating petitions, 6215.1 (a) requires that "the sheets of a petition shall be numbered sequentially at the foot of each sheet. Here, there are *no* numbered pages at all. Therefore the pages are invalid on their face. Observe Objector's Schedule A- it is difficult to determine to which pages the objections relate without laboriously counting the pages one by one. There is good reason the statute requires pages to be numbered and here the petition fails again.
7. Besides these technical statutory requirements, I am compelled to address the ENVIRONMENTAL EFFECTS present. And it is here that I refer to Schedule B, the prior statement previously presented by the late Attorney Samuel S. Yasgur.
8. I include his statement for two reasons: one because I wish to give him full credit for the contents and, two because I don't think I could have presented it better, myself.
9. I cannot underscore the potential environmental impacts that could be visited upon this small community if another Kiryas Joel were to be created here. I spent over two decades as the attorney for the Town of Fallsburg Planning and Zoning Boards and I am friendly with numerous properties within that Town. I can assert with certainty that in parts of that Town the water pressure is low and warnings have been given to builders that continued expansion can well overstress the system.
10. If ever there were a need for a JOINT SEQR review of such a development it is certainly called for in the case of a Village of Ateres. Please review the late Attorney Yasgur's statement, attached hereto and made a part hereof. (Schedule B)
11. OF EQUAL CONCERN IS THE NATURE AND COMPOSITION OF THIS NEW VILLAGE. If one were to look at the map of the proposed village (Exhibit C), one can see that the major population base is contained within approximately 5% of the whole property. It concerns me that the notice requirement for a village is woefully inadequate for the individuals who live on the outskirts. Posting a notice in the newspaper and on five separate places within the district as required, I respectfully assert is simply inadequate.
12. This is tantamount to a Zone Change. Whenever notice is required for a zone variance everyone even within hundreds of feet of the change is given notice in a more direct manner. Here I this zone change is occurring to an unsuspecting public.
13. It is hornbook law and part of our American system that people out to be give some reasonable notice of laws that might affect them and also be given an opportunity to be heard. I am certain that is not the case here. If people know that it is

possibility of a Kiryas Joel coming to their neighborhood, I firmly believe they out to be given some real and honest notice as a matter of right.

14. Finally, I would respectfully refer your attention to the final thoughts and suggestions raised by Attorney Yasgur as set forth in Exhibit B.

15. Thank you for your attention.

Respectfully submitted,

Ronald G. Hiatt

STATE OF NEW YORK; COUNTY OF SULLIVAN
TOWN OF THOMPSON

-----X
In the Matter of the Petition for the Incorporation of the :
VILLAGE OF ATERAS :
Pursuant to Article 2 of the Village Law. :
-----X

TO: TOWN SUPERVISOR, TOWN OF THOMPSON

OBJECTIONS TO PETITION
BY TOWN OF THOMPSON RESIDENT

Pursuant to Section 2-206 of the Village Law of the State of New York this constitutes my objections to the above captioned Petition.

Name of Objector: Samuel S. Yasgur

Address of Objector: 21 Kent Street, Rock Hill, N.Y.

Voting Status: I am a registered voter qualified to vote in Town of Thompson elections.

Statement of Interest:

I submit this objection solely as a resident and qualified voter in the Town of Thompson. I DO NOT submit these objections on behalf of any entity or group. These objections are solely my own.

Objections to the Petition:

1. It is manifest from the Petition itself that such territory does not contain at least five hundred "regular inhabitants" as that term is defined by law:

EXH B

- A. Village Law, Section 2-200(1), requires that the territory to be incorporated as a Village must contain at least five hundred "regular inhabitants".
- B. Village Law, Section 2-200(2), provides that two classes of persons shall NOT be counted in determining whether the minimum number of five hundred regular inhabitants has been met:
- i. persons who maintain a residence outside of the described territory which is used as their address for the purpose of voting, and
 - ii. persons who are under the age of eighteen who reside with persons who maintain a residence outside of the described territory which is used as their address for the purpose of voting.
- C. The Appendix to the Petition contains twelve pages of names entitled "Census Village of Aterac".
- D. Nowhere in the aforesaid Appendix, nor anywhere in the Petition, is there an allegation that none of the voting age persons listed in the Appendix maintain a residence, outside of the described territory, which is used as an address for the purpose of voting.
- E. Nowhere in the aforesaid Appendix, nor anywhere in the Petition, is there an allegation that none of the persons under eighteen years of age who are listed in the Appendix reside with persons who maintain a residence, outside of the described territory, which is used as an address for the purpose of voting.
- F. It is patently clear from the addresses set forth in the Petition that the Petitioners are attempting to avoid the statutory requirement of Village Law, Section 2-200(2) with respect to persons under the age of eighteen years.
- i. Approximately 267 of the names on the Petition all have the same address, i.e., "168 Yeshiva Road, a/k/a/ Yeshiva Drive, Kiamesha Lake, New York.
 - ii. Upon information and belief the structure located at that address is a school.
 - iii. Upon information and belief most if not all of the persons attending that school are less than eighteen years of age.

iv. The fact that most if not all of the persons listed as residing at 168 Yeshiva Rd. are under the age of eighteen is confirmed by the Signature Pages appended to the Petition. Those pages contain just seventeen names. According to the top of those two signature pages those seventeen persons constitute "... at least twenty percent of the residents of the territory herein proposed to be incorporated as a village, qualified to vote for officer in the town ...". Seventeen is twenty percent of eighty five. By saying that seventeen persons constitute "... at least twenty percent ..." of the qualified voters in the described territory, those seventeen signers are affirming that there are only eighty five or FEWER qualified voters in the described territory and that all of the other persons are either not qualified to vote in the described territory or are under eighteen years of age. Indeed, I am informed and believe there may be fewer than forty five qualified voters in the described territory.

- G. There can only be one reason for listing the school address for the aforesaid 267 person, i.e., that the parents or legal guardians of the persons listed as residing at 168 Yeshiva Rd. maintain residences outside of the described territory which are used for the purpose of voting. Were that not the case the Petition clearly would have listed the address of the parent or legal guardian with respect to each person under the age of eighteen years.
- H. Accordingly, from the face of the Petition itself it is manifest that the Petitioners have not met the statutory requirements.

2. The Petitioners have not complied with the State's Environmental Quality Review Act.

- A. According to the reports in the press the sole purpose of those proposing to create the Village of Ateras is to change the zoning code so as to permit a greater population density. According to the press reports those proposing to create the Village of Ateras have said that they will contract with the Town for all services.
- B. The filing of the Petition is an action designed to have an impact on population density in a designated area within the Town. It is, therefore, an action which is designed to have an environmental impact.
- C. Given the stated purpose of those who seek to create the Village, the filing of the Petition should be viewed no differently than the filing of an application by a developer who seeks to create a new high density zone

within the Town. In other words, it is an action which itself requires compliance with SEQRA.

D. I appreciate that those proposing to create the Village may say that they will comply with SEQRA after the incorporation of the Village and when they seek to establish their own zoning requirements. I respectfully submit that would be too late and that it would violate the requirements of SEQRA.

- i. The proposed change in density within the proposed village would have an immediate and direct impact on the remainder of the Town.
- ii. For that reason the Town, if not an even more regional entity, should be the lead agency and should make the final decision with respect to the environmental impacts.
- iii. Nothing presently prevents the residents of the described area from seeking to have the Town revise the density provisions in that described area, and to do so in a manner consistent with SEQRA and with the interests of the remainder of the Town.
- iv. It is patent that the purpose for creating the village is to be able to increase density in that one area without regard to the interests of the remainder of the Town.
- v. If the proposed village was to be created the village, and not the Town, would be the lead agency with respect to its own proposed zoning, zoning which would increase population density and which would, as a direct result, affect the remainder of the Town.
- vi. Since those seeking to create the new village have made it clear that their purpose is to create higher density zoning, and since everyone in the described area appears to be a part of a single group having a single purpose, it must be assumed that any environmental review which might be done by the new village would not adequately consider the environmental interests of the remainder of the Town. The village is being created for one purpose and it must be assumed that the incorporators of the village would pursue that purpose with vigor, whether or not that purpose is consistent with the interests of the remainder of the Town.

- E. Accordingly, the Petition should be returned as untimely with instructions that the Petitioners to comply with SEQRA before resubmitting the Petition.

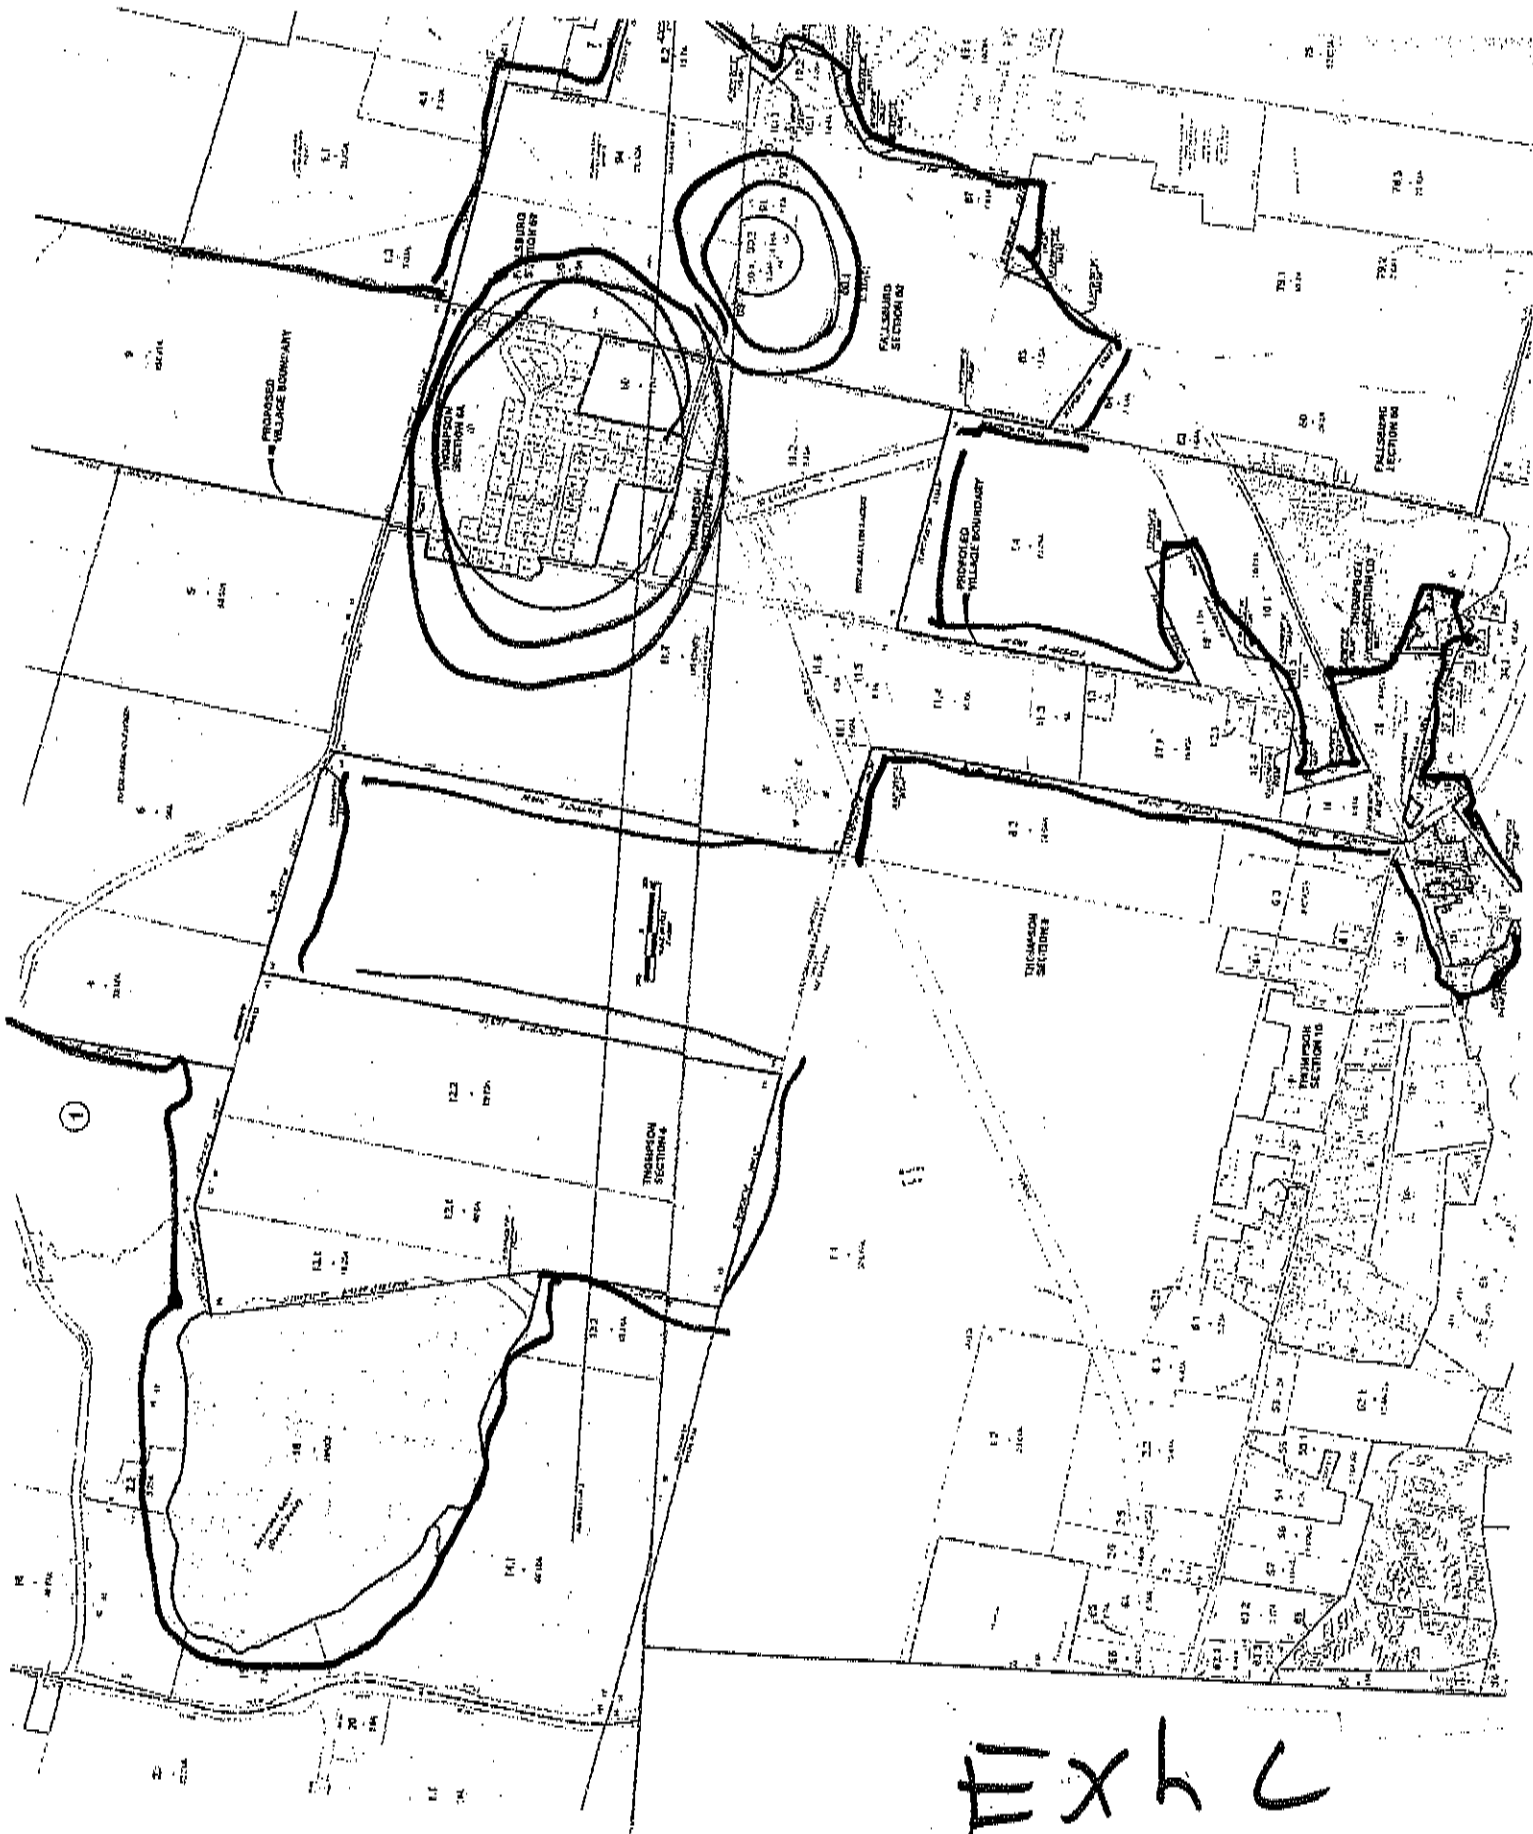

General Comments:

Aside from the specific objections set forth above, I respectfully submit the following:

1. Over the life of this nation incalculable human and material resources have been expended to prevent separatism and exclusion.
2. As a people we have been committed, albeit with some exceptions, to insuring that our governmental entities and institutions are independent of dominance by any religious group.
3. Justifying a municipal entity based on a commonality of religion or some other social criteria might seem acceptable if the underlying community is one which is viewed as desirable or benign. However, what does one then do when the underlying community of persons is not benign? What if a petition is received tomorrow from 500 "regular inhabitants" of an area seeking to become a village and it is discovered that all 500 are members of an organization, or subscribe to a philosophy, which most would consider racist, or anti-Catholic, or anti-Jewish, or anti-Muslim, or anti-American. Under the current provisions of the Village Law it might appear that such a group would have a right to incorporate as a village.
4. I submit the current provisions of the Village Law should be changed to at least require a town-wide if not a county-wide referendum before a new village is created.
5. I recommend that the Town Board take a leadership role in proposing such an amendment to our state representatives.
6. I also submit that unless such changes, at a minimum, are made, the Town and the County could wind up pockmarked with scores of specialty, separatist villages, created on cultural, religious, ethnic, racial or other some other basis antithetical to a heterogeneous, pluralistic society.
7. I submit the Town Board should use its best efforts to promote equality and inclusionism, and to resist separatism.

Respectfully submitted,

Samuel S. Yagur

EXH C

August 3rd, 2023

We are speaking today in opposition to the Ateres petition to create a new village.

Through research done regarding formation of villages in NY State, it was discovered that the State government is offering grants to existing villages for the dissolution of their village classifications. This is for the purpose of simplifying the governance of municipalities and to save taxpayer money. The Ateres petition flies in the face of this statewide trend.

It is apparent that the very few petitions for village status currently in process are being promulgated by groups similar to the Ateres community, which previously petitioned for Village status in 2005. As documented in an article published in 2005 by the Sullivan County Democrat, the leaders of the proposed Ateres community admitted that their sole purpose in seeking Village designation is to "bypass the town's zoning laws so as to build at a higher density."

When a village is formed, they create their own regulatory boards and enforcement infrastructure for zoning and building codes, with no other oversight. Where this has happened in other areas of NY State we have seen, for example, 6-story buildings proliferate. There is no oversight from surrounding town zoning boards or building departments even though the populations surrounding this property would be directly affected.

If the proposed village was to be created, the village, and not the surrounding Towns, would be the lead agency with respect to its own proposed zoning of increased density, despite the impact this would have on the surrounding municipalities. We believe it likely that if this village designation is approved, with the explicit intent of creating higher population densities than are currently allowed, negative impacts on the environment and resource availability will inevitably follow. Moreover, if the SEQOR process proceeds after the village is created it is likely that the environmental review process will not adequately consider the interests of the affected Towns and surrounding areas.

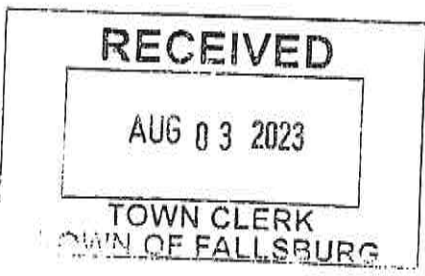

Finally, we strongly object to the precedent that acceptance of this petition would create in Sullivan County. This would no doubt be seen as a green light for numerous other communities to pursue the creation of small villages, with similar intent to over-develop, and thereby overtax the already challenged and aging resources of the surrounding Towns, including water and sewer infrastructures.

We ask that both town Supervisors reject this petition.

Respectfully submitted,

Mary Adams, year-round resident of the Town of Fallsburg for the last 40 years.
Mary Adams 16 Edward Dr. Loch Sheldrake, NY 12759

Alice Camara, year-round resident of the Town of Fallsburg for the last 20 years.
Alice Camara - 47 Timber Hill Lane, S. Fallsburg, NY 12779

August 3rd, 2023

I am speaking today in opposition to the Ateres petition to create a new village.

On the zoning map that I obtained from the Town Clerk of Thompson, the boundaries indicated are very unclear and impossible to read. The writing is unclear even if magnified. the validity of this map to signify accurate boundaries for this petition. I request a thorough review of these boundary lines and a readable map supplied for viewing.

Secondly How do we know if all the owners of parcels included in this petition are aware that they are being proposed as part of a Village. Is each resident aware of all the implications that come along with a village designation? I am not at all sure that all of the residents of this area are aware of what is happening. Is there a legal responsibility to ensure that all residents are making an informed decision.

I request that both Town Supervisors reject this flawed petition.

Respectfully submitted,

My name is Johnnie Reeves, My wife Debra Reeves and I are residents of the town of Thompson. We have lived here for 29 years. We are here today to discuss whether the petition for the proposed village of Ateras is legally valid, for approval by the joint decision of the supervisors of Thompson and Fallsburg. We wish to challenge the petition as being deficient on many points. We challenge for the following reasons

- 1) There are no numbered pages on the document
- 2) All 21 pages are not numbered
- 3) In Exhibit C. The signature section is flawed because it does not indicate the number of signatures on the sworn affidavit
- 4) There are 20 signatures that indicated addresses that do not match the Sullivan County Board of Elections
- 5) The petition shows signatures of residents who claim to be qualified voters for town officers, but 28 of these are not registered voters of either town
- 6) There were additional names which are invalid since they were only printed, and did not have a legal signature
- 7) Some people used only their last name and a full name is required

Therefore we request the petition be denied since it does not meet the requirements for a valid petition, It does not have the required minimum of 20% qualified voters in order to incorporate.

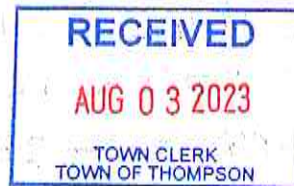

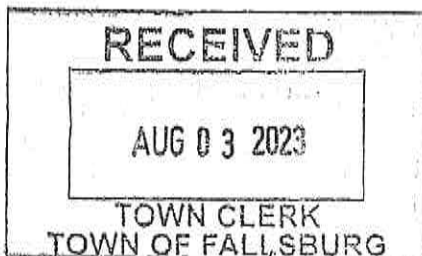

Thank You

Johnnie Reeves

August 3, 2023

Dear Supervisor Katherine Rappaport and Supervisor William Rieber:

My name is Sandra Johnson Fields. I am a resident of the Town of Thompson. I have lived in this town since March 2003. I am here to talk about the petition for the proposed Village of Ateres. According to the map and plans submitted to the planning board my home and property will be part of this proposed village. Upon review of this petition there are several serious mistruths which makes it insufficient for approval.

First, it doesn't have page numbers. The page numbers are needed for people to discuss the petition properly. It's impossible to refer to specific pages without the pages being numbered. This deletion makes all 21 pages of this petition no good.

Next, on the page of signatures, the person who swore in an Affidavit that he saw the signatures, left out how many signatures are there. This omission makes the petition not believable.

Also, this petition says there are 99 signatures from residents who can vote in both the Town of Thompson and the Town of Fallsburg. 28 of those signatures are not registered to vote in either town. So this is an inaccurate statement and a falsehood which makes this petition invalid.

Then there are at least 20 signatures with wrong addresses that do not match Sullivan County official voter registration records. Some people printed their names instead of signing their names as required. Other signatures were only the last name not the lawful signature required. Based on all the misstatements, there are probably only 50-52 valid signatures. This is much, much lower than the 20% needed by NYS village law to support incorporation of a new town.

The Witness of the petition attests that he knows each of the petitioners who signed this document in his presence and the petitioners are familiar with the contents and purpose of the petition along with knowing the boundaries of the territory. The numerous untruths and errors in this document casts doubt on the truthfulness of this statement.

Considering the significant misinformation, fallacies, and inaccuracies contained in this petition, the veracity of it is questionable. I earnestly request that the Proposal for the Village of Ateres be denied due to a lack of sufficient Petition.

Respectfully,

Sandra Johnson Fields

August 3rd, 2023

My name is Raymon Elozua. I have lived in Mountaindale, a hamlet in the town of Fallsburg, since 2005. Paul Hoeffel, a co-signer to this letter has lived in Fallsburg for 40 years. I am speaking today in opposition to the Ateres petition to create a new village. In these difficult economic times, local governments cannot further subdivide and fracture. Indeed the opposite is true. More local towns and governments should consolidate to save taxpayer money by avoiding duplicate services and jobs. Indeed the New York State legislatures have approved a bill awaiting the governor's signature requesting that 2000 signatures be the minimum for a valid petition to create a new village.

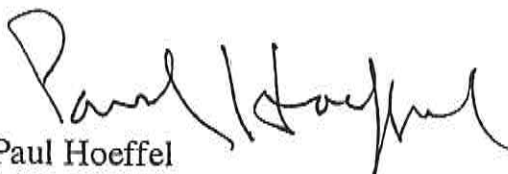

I reviewed the citizen signatures of those who signed the Ateres petition. I used the Voter Registration Book that was dated April 27, 2023. This petition collected 94 signatures, specifically on March 30, 2 on May 26 and 3 on June 13 for a total of 99 signatures.

I printed all pages of the petition, from Petition Page # 42 through # 62, a total of 99 signatures. I searched for the last name on the voter rolls. If I did not find a match, I then searched by first name. As a last resort, I searched by address.

I reviewed the 99 signatures on the petition. 23 did not appear on the Board of Election list. I also found 14 had written different addresses on the petition sheet other than what appeared on the voter list. I also found 2 that were so illegible as to be unreadable and thus unsearchable. 13 signatures are also illegible and questionable and would need to be compared to the official Board of Elections signature list. I am submitting copies of my results with this letter.

There are at a minimum 52 invalid and problematic signatures. Only 47 signatures remain. It is extremely likely that other signatures could be declared invalid. Moreover, the technical standards for this petition are not in accordance with official New York State requirements another legal hurdle. It is clear that the Ateres petition definitely does not have enough valid signatures to constitute a legally sufficient petition.

I ask that both Town Supervisors reject this flawed and deficient petition.

PLAT NO.	DATE	
PREPARED BY	APPROVED BY	
REGISTERED PROFESSIONAL SURVEYOR STATE OF MONTANA LICENSE NO. _____		

Hi! Here are some facts that I put together for some of the people who will be submitting challenges, *which must be in writing*. This is designed to be reworded as you see fit.

My name is Ina Rudick I am a resident of the Town of Thompson.

I have lived here for ____ years. We are here today so we can discuss whether the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I wish to challenge the Petition as being deficient in multiple ways. I believe it was improperly submitted because it has no page numbering which is required for the public to be able to effectively discuss signature challenges. Therefore, all 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

However, there were many other numerous errors in the individual signatures collected. The pages are alleged to include 99 signatures of residents who are "qualified to vote for town officers " in the included two towns. This is not the case because at least 28 of the individuals are not registered voters in either town. I make a challenge against an additional 20 signatures who listed addresses that do not match the voter information in Sullivan County Board of Elections and NYSBOE, or that the signature itself seems to have been written by an alternate person. The witness to all of the signatures is Naftula Neiman of the Town of Ramapo who swore that he knows each of the petitioners who signed in his presence. Nearly all of the signatures were obtained in his presence on March 30. Each is supposed to have been made familiar with the contents and purpose of the Petition and boundaries of the territory. This does not appear to be a true fact given all of the other deficiencies of this document. There were additional signatures which had errors like that the person printed

his/her name and not their lawful signature or only used their last name and not their full name.

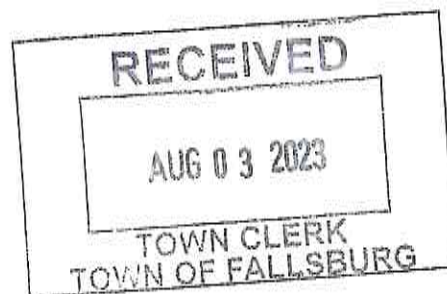

It is likely that there are only about 48-50 qualified voter signatures in this proposal which is far below the 20% threshold required for a proposal to incorporate. There may actually be even less. It is clearly too small a number to indicate support to create a new municipal structure to have jurisdiction over so many of the neighboring parcels that would be absorbed by this Village. I request that the Proposal be denied for lack of a sufficient Petition.

Re: The new village petition, 2023
I think it is not legally sufficient
Specific reasons why

Supervisors:

I attended the public meeting on August 3, 2023 about the petition to incorporate a new village and spoke of deficiencies I had found in the petition, which you requested I put in writing and sign. Since the public comment period was left open, I have found additional deficiencies and added them.

Sources

The text of the petition I am using is from the PDF, filename <Village of Ateres Petition.pdf>, sent by the Fallsburg Deputy Town Clerk, Paula Grogan, on Tuesday August 1, 2023, to my personal email.

The text of the Village Law I am using is from the New York State Senate's website, <<https://www.nysenate.gov/legislation/laws/VL>>, called *Chapter 64, Consolidated Laws of New York*. I am aware this is not the official annotated copy; your counsels should see if the in-force text is the same.

The website of Merriam-Webster is <<https://www.merriam-webster.com/>>. Cambridge Dictionary's is <<https://dictionary.cambridge.org/>> and the Oxford English Dictionary's <<https://www.oed.com/>>. On all of them term or word being looked up was entered in the text field in the center top of the page.

Other than the petition, all online content was accessed last on Sunday, August 6, 2023.

Basis of my petition challenging

The hearing begun on August 3, 2023 was to "hear objections which may be presented as to the legal sufficiency of the petition for incorporation", Village Law section 2-206(1). Of the 7 grounds for objection given, mine is 2-206(1)(g), "[t]hat the petition in any other specified respect does not conform to the requirements of this article".

"This article" is Article 2 of the Village Law, which includes section 2-202 Petition for incorporation. Subsection 2-202(1)(c)(1) when read with 2-202(1)(c) and 2-202(1) says:

A proceeding for the incorporation of such territory as a village shall commence with a petition. [...] Each copy of the petition shall have attached [...] A description of such territory sufficient to identify

Mclver – objection on proposed new village petition – August 7, 2023

the location and extent of such territory with **common certainty** and which shall be in one of the following forms or a combination thereof: (a) a **metes and bounds description**[.]

Bolding added to 2 phrases that are the basis for my objection to the petition. The forms listed after metes and bounds I omitted because this petition does not use them.

Common certainty

I do not have legal training, so had to use a not efficient method to see if this has specific meaning in law.

First, I searched for the exact phrase “common certainty” on the New York State Senate’s OpenLegislation, the digitized laws of New York, <<https://www.nysenate.gov/legislation/laws>>. The phrase is also used twice in the Real Property Actions and Proceedings Law (sections 1031 and 1942) and once in the Town Law (73). None explain the term. Thompson Reuters Westlaw’s unofficial NYCRR, <<https://govt.westlaw.com/nycrr/>>, returned nothing. Cornell University’s Legal Information Institute’s Wex legal dictionary and encyclopedia <<https://www.law.cornell.edu/wex>> also did not list it.

After this, I used both Google and Bing search engines for the term on all websites hosted on ny.gov and its subdomains (“common certainty” site:.ny.gov), meaning servers “under” ny.gov (examples: www.ny.gov, senate.ny.gov, governor.ny.gov, ag.ny.gov, agriculture.ny.gov, ...). Google returned 2 results on OpenLegislation, I had found above. Bing did not return any results.

From this I assume – hopefully accurately – “common certainty” means what “common” and “certainty” do, combined.

Of 3 online dictionaries I consulted (Merriam-Webster, Cambridge, Oxford English), Merriam-Webster indicated any legal definitions of words, so I used it. Their legal definition 1.a for “common” was “of or relating to a community at large”. “Certainty” didn’t have a legal definition, but definition 2 was “the quality or state of being certain especially on the basis of evidence”.

“Certain” definitions (none marked as legal definitions) that seemed applicable were: (1) fixed, settled; (3.a) dependable, reliable. Using these, my definition of “common certainty” is:

certain, on the basis of evidence, to the community at large

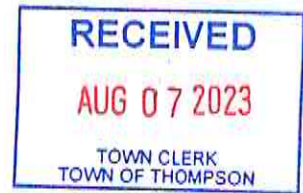

Metes and bounds description

I could not find a definition of “metes and bounds” in OpenLegislation or the unofficial NYCRR, but searching under all .ny.gov sites, I found this in the New York State Department of Transportation’s ROW [Right of Way] Mapping Procedure Manual of May 2006 (last revised September 2019) glossary:

A description of a parcel of land by reference to the courses (bearings, that is, the angles east or west of due north or due south) and distances (usually in feet or chains) of each straight line which forms its boundary, with one of the corners tied to an established point[.]

This can be found online at <<https://www.dot.ny.gov/divisions/engineering/design/design-services/land-survey/repository/Entire%20Manual.pdf>> on PDF page 282.

Mclver – objection on proposed new village petition – August 7, 2023

Improper use of sources

On PDF page 8 of <Village of Ateres Petition.pdf>, right after the metes and bounds description, is “The above-described premise is based completely on tax map information...”. The tax maps on Sullivan County’s website, the webpage for these maps on the County website, and the GIS layer “Parcels” warn against using them for unintended purposes:

FOR TAX PURPOSES ONLY NOT TO BE USED FOR CONVEYANCE
(<<https://sullivanny.us/sites/default/files/departments/RealProperty/TaxMaps/Current%20Tax%20Maps/ThompsonTaxMaps.pdf>>, title block, lower left corner, in red)

Maps are intended for reference and locational purposes only.
(3rd sentence under page title, <<https://sullivanny.us/Departments/RealProperty/TaxMapGallery>>)

Boundaries are representational and are intended to be used for visualization and taxation purposes only. Not to be used for conveyance purposes.
(<<https://gis.sullivanny.us/portal/home/item.html?id=267429ec1cfd402bb6732c6c9a78a350>>, 2nd sentence under blue bar with page title)

The intent is clearly that these are not for determining property boundaries. A personal example of why, my parcel boundary appears to cut my neighbor’s house in half. A licensed surveyor determined the line misses it by over 1 foot, a difference of about 20 feet.

Exhibit A’s surveyor did not actually survey the land (“...based completely on tax map information...”) but used these maps for a purpose they are unsuitable for. Their nonexistent point of beginning already suggested this – the PDF tax map is not detailed enough to show those 3 feet.

Disagreement with the list of tax parcels

The rest of the sentence at the top of PDF page 8 of the <Village of Ateres Petition.pdf> is “[t]he above-described [...] intent is to contain the following tax map parcels”, after which are 4 pages of SBLs.

I compared the metes and bounds description to the list by filling in each tax parcel in Exhibit A in my map in QGIS. At the end, 4 tax parcels (all in Thompson) within the metes and bounds were left out: 10.-15-5.1, 10.-15-5.1, 6.A-1-1.8, and 6.-1-2.1. Assuming the metes and bounds description was intended to include *only* the listed tax parcels, it fails and Exhibit A is internally contradictory.

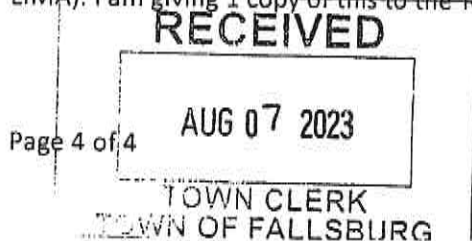

Also, the sentence at the end of PDF page 7 excludes “Fallsburg Tax Map Parcel 10.-16-1.2”; there is no parcel 10.-16-1.2 in the Town of Fallsburg. There is such-a-one in the Town of *Thompson*.

A conclusion

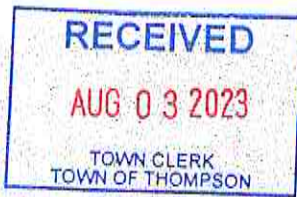

The petition for incorporation does not comply with the requirements of Village Law article 2 and so your decision under section 2-208(1) should be adverse to it. Thank you for reading me.

Important legal requirements

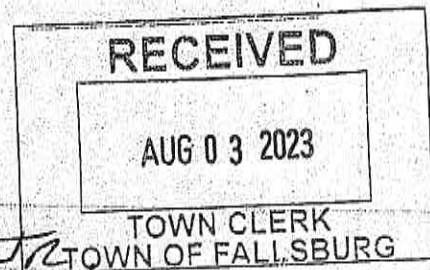

I live in the Town of Fallsburg. My physical address is 6 Decker St, South Fallsburg NY 12779 or SBL 53.-5-3. My name is Keith Mclver (the third letter of my last name is a capital INDIA, not a lowercase LIMA). I am giving 1 copy of this to the Town Clerk in each town. My signature:

—Keith Mclver—

I

To: MR. Bill Rieber Jr.
Town of Thompson Supervisor

AND

Ms. Katherine Rappaport
Town of Fallsburg Supervisor

From: MR. AND MRS. STEVEN M. RIVELA
AND Lorraine P. RIVELA
59 GIBBER ROAD
Kiamesha Lake, N.Y., 12751
TEL. # (845) 794-1982

Subject: Opposition to a petition
that seeks to incorporate a new
village identified as the "Village of
ATERES" within the Town of Thompson.

Date: August 3, 2023

We respectfully submit this letter
to inform you that we object to the
petition for the proposed "Village of
ATERES" within the Town of Thompson,
which we were made aware by an article
in the Democrat dated July 25, 2023. This
challenge is based upon any and all

II

information we received by way(s) of social media.

Our names are STEVEN M. Rivea and Lorraine P. Rivea. We are a married (Senior) couple who have resided at #59 GIBBER Road, in Kiamesha Lake, N.Y., 12751 for approximately (20) years, and in the town of Thompson for approximately (25) years.

The "improprieties" of certain and or proposed Village Representatives demonstrates to us a seemingly behavioral pattern of engaging in fraudulent activity characterized by misleading signature errors on voting submissions, errors in individual signatures and on a sworn affidavit, and on the questioning of sworn statements. These manipulations, document deficiencies, and what we understand to be a 50-52 qualified voters ratio in this proposal, would render it far below a 20% threshold required for the proposal to incorporate. We further understand that based on those figures, they are too small a number to create a new municipal to have

III

jurisdiction over neighboring parcels, including our home that would be absorbed by this Village and drastically change our lives for the worse.

As such, we feel the petition in question, with regard to the "Village of Aterres", be denied as all of the proposed representatives have forfeit the right to file said petition based on what appears to be attempts of fraud and deception and ultimately mocking Town officials, citizens and "regulations" we live by. There appears to be an "epidemic" of promoting ill bred behaviors, and it should be stopped.
Thank you!

Respectfully,

Steven M. Luel
Lorraine P. Rivela

RE: PUBLIC HEARING THURS AUG. 3 / ATERES

Attention: Kathy Rappaport and Bill Rieber

Date: August 3, 2023

To Whom It May Concern,

I am completely opposed to the formation of Ateres where the community would be self-governing with no oversight representing the rights of all in our area. I am very concerned about drainage, water problems, large natural area cut down without environmental oversight.

I also am totally disapproving that any meeting or voting can be held inside of the community wishing to form their own govt. it seems unfair for those of us who have more difficulty in attending these meetings than the community in question.

South Fallsburg, of which I am a year round resident is already overwhelmed with projected building. I do not approve of the proposal that Ateres become a separate governing body within our community.

Sincerely,
Carole Bell

My name is DANN RASHELL I am a resident of the Town of Thompson.

I have lived here for 19 years. We are here today so we can discuss whether the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I wish to challenge the Petition as being deficient in multiple ways. I believe it was improperly submitted because it has no page numbering which is required for the public to be able to effectively discuss signature challenges. Therefore, all 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

However, there were many other numerous errors in the individual signatures collected. The pages are alleged to include 99 signatures of residents who are "qualified to vote for town officers" in the included two towns. This is not the case because at least 28 of the individuals are not registered voters in either town. I make a challenge against an additional 20 signatures who listed addresses that do not match the voter information in Sullivan County Board of Elections and NYSBOE, or that the signature itself seems to have been written by an alternate person. The witness to all of the signatures is Naftula Neiman of the Town of Ramapo who swore that he knows each of the petitioners who signed in his presence. Nearly all of the signatures were obtained in his presence on March 30. Each is supposed to have been made familiar with the contents and purpose of the Petition and boundaries of the territory. This does not appear to be a true fact given all of the other deficiencies of this document. There were additional signatures which had errors like that the person printed

his/her name and not their lawful signature or only used their last name and not their full name.

It is likely that there are only about 48-50 qualified voter signatures in this proposal which is far below the 20% threshold required for a proposal to incorporate. There may actually be even less. It is clearly too small a number to indicate support to create a new municipal structure to have jurisdiction over so many of the neighboring parcels that would be absorbed by this Village. I request that the Proposal be denied for lack of a sufficient Petition.

TOWN OF THOMPSON

From: James Legari [mailto:jlegari33@gmail.com]
Sent: Thursday, August 10, 2023 3:10 PM
To: krappaport@fallsburgny.com
Subject: Village of Ateres

Dear Supervisor Rappaport,

My name is James Legari and my wife and I live at 26 Murphy Rd. I'm writing to you because based on what I've seen of the petition and the attached map for the Village of Ateres, it's not legally sufficient for you and Thompson Town Supervisor Rieber to approve. This email communication serves as my challenge to the petition as being legally deficient in a multitude of ways.

Below are the ways in which I see the petition to be legally deficient.

First, it was improperly submitted. The petition does not include page numbers which are required to discuss signature challenges. This makes all 21 pages flawed. In addition, the first page of the signature section of Exhibit C is also flawed because the "Witness" did not indicate how many signatures were on his sworn Affidavit.

Second, the pages allege to include 99 signatures of residents who are "qualified to vote for Town Officers in the two Towns". This is not true because at least 23 of the individuals who are alleged to have signed are in fact not registered voters in either Town. Also, an additional 14 signatures listed addresses that do not match the voter registration information from the Sullivan County Board of Elections and NYS BOE. There are additional challengeable signatures with errors showing the person did not use their lawful signature or did not use their full name.

It is likely that there may be only 52 qualified voter signatures on the petition. This is far below the 20% threshold required for the petition to be valid. This would seem clear that this is too small a number to indicate there is sufficient support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and all the privately, non religious, owned properties that would be absorbed by this village.

And lastly, the map that was presented with the petition could not have been done by a licensed surveyor, as too much detail was left off the map making it impossible to read or understand.

I respectfully request that you deny this petition.

Thank you,
James and Linda Legari
26 Murphy Rd, Woodbourne N.Y. 12788

TOWN CLERK
TOWN OF FALLSBURG

Hello -

my name is Ronnie Cohen,
I have lived in South Fallsburg
since I was a child with my
parents, and their parents.

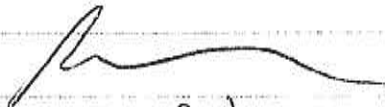

I am a Resident of South
Fallsburg and have been for
over 60 years.

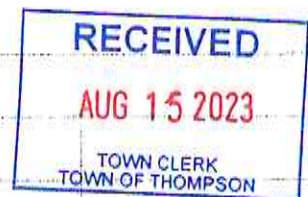

I am not happy with the
proposed changes to this area.

The petition for the proposed village
of ATERES, and I believe it is
not legally sufficient for
approval by the Supervisors of
Thompson + Fallsburg. With this
letter, I submit a challenge. the
petition is deficient in several ways
1) no page numbering which is required
therefore all 21 pages are
flawed,

2) the first page of the signature
section of exhibit C is also flawed
because the witness did not indicate
how many signatures were on his
sworn Affidavit.

- 3) Many numerous errors is individual Signatures collected be 99 Signatures but many of them are not qualifies to vote & are not registered to vote
- 4) at least 28 people that signed are not requested to vote & do not match voted info in the board of elections in Sullivan county
- 5) ~~Propose~~ ~~There~~ The Real number of legal Signatures is below needed amount

Town Board and Interested Parties:

I, Charleen Kavleski, have resided in the Town of Fallsburg for more than 50 years.

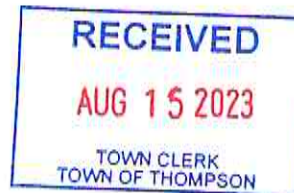

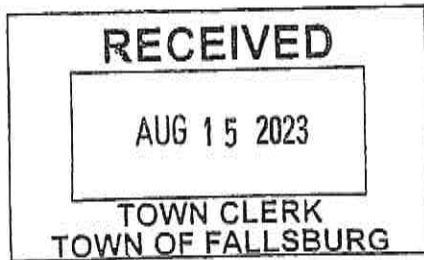

I was forwarded a copy of the signatures on the petition for the proposed new village of Ateres. Also emailed was a description of the flaws therein.

I do agree that many of the signatures are unclear and would not trust their validity. Consequently, I believe that this petition is improper and should not be considered appropriate for submission for the proposed new village of Ateres.

Sincerely,

Charleen Kavleski

Charleen Kavleski

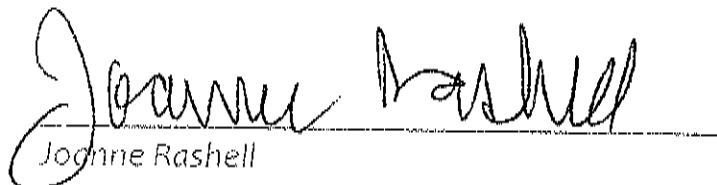

My name is Joanne Rashell, I am a resident of the Town of (Thompson or Fallsburg) I have lived here for 19 years. I do not believe the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I wish to challenge the Petition as being legally deficient in multiple ways.

It was improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

The pages allege to include 99 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town. An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE. 15 signatures seem to have been written by an alternate person. There are additional challengeable signatures with errors that the person did not use their lawful signature or did not use their full name.

It is likely that there are maybe 52 qualified voter signatures, which is far below the 20% threshold required for the petition to be valid. It is clearly too small a number to indicate support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and parcels that would be absorbed by this Village.

I request that this Proposal be denied for lack of a legally sufficient Petition.

TOWN CLERK
TOWN OF FALLSBURG

Dear Ms. Kathy Rappaport;
I've met you when you were running, I supported you and now I am counting on you to take actions that support us, help us - we the People.

I am a resident of the Town of Fallsburg. I have lived here since December of 2002. I am a business owner, a yoga teacher, trauma counselor and community supporter. I am worried about my future here. We are being invaded and taken over systematically, to say the least.

I do not feel safe here anymore - driving is difficult and dangerous, the Hasidics come by almost daily to ask and to pressure if I want to sell my property, they drive up the driveway uninvited and snoop around, sometimes even taking pictures.

But one of the biggest problems I face is the shortage of water. Now, it takes almost an hour to fill up my bathtub, not 15 min like before. When someone is taking a shower in my house, I have to wait till they finish because there is not enough water pressure, and the water is not coming out properly till the other person is finished with shower. I cannot water properly my vegetable garden - it takes forever or some days not possible at all.

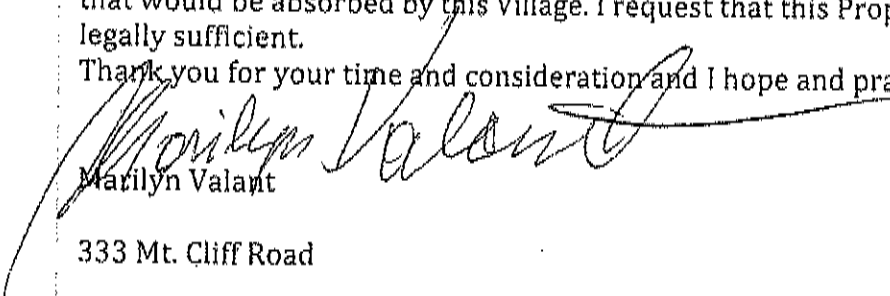

Now, on a top of all this we are facing another clever invasion in the form of Village of Ateres Proposal. I do not believe the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I wish to challenge the Petition as being legally deficient in multiple ways.

It was improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit. The pages allege to include 99 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town. An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE. 15 signatures seem to have been written by an alternate person. There are additional challengeable signatures with errors that the person did not use their lawful signature or

did not use their full name.

It is likely that there are maybe 52 qualified voter signatures, which is far below the 20% threshold required for the petition to be valid. It is clearly too small a number to indicate support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and parcels that would be absorbed by this Village. I request that this Proposal be denied because the Petition is not legally sufficient.

Thank you for your time and consideration and I hope and pray that you take the right action.

Submitted to Town Clerk's Office in South Fallsburg

OBJECTION TO PETITION for Village of Ateres

My name is Tina Hazarian. I live in South Fallsburg. I have been a homeowner here for 33 years.

I am unclear about how the public was notified of the Village of Ateres petition and of the meetings, as I could not find anything on the Towns' websites. (I received an email from a community member, how I was notified.)

Additionally, I do not understand why a "public" meeting is being held in the synagogue space of the petitioners? A place unfamiliar to non-Jewish-Orthodox community members, and a place some people (not me) may not want to enter, just as some Orthodox Jews will not enter a church.

A public school or college would have been a more appropriate venue.

I do not believe the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I wish to challenge the Petition as being legally deficient in multiple ways.

It was improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed.

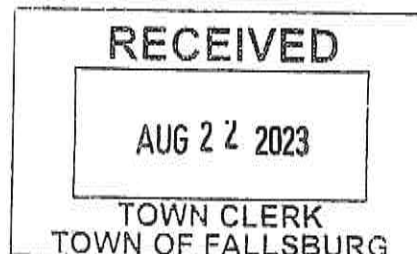

The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

The pages allege to include 99 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town.

An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE.

15 signatures seem to have been written by an alternate person. There are additional challengeable signatures with errors that the person did not use their lawful signature or did not use their full name.

Village of Ateres
 Challenges to the Village Incorporation Petition: The Village of Ateres and all
 included supporting documents (exhibits)

My name is Paul Hoeffel and I am a resident of the Town of Fallsburg.

These are challenges to the Petition as being deficient in multiple ways. For the purpose of making it easy to reference and see the deficiencies, Exhibit C was divided into two sections and the pages for each section have been numbered. Section 1: A list of the regular inhabitants residing within the territory of the proposed village and Section 2: Notarized signature pages of the signatories of the Petition. In order to make it easier to refer to the flaws, also signatures/signatories on each signature page have been numbered.

We question the validity and legality of the signature pages submitted by Naftula Neiman of the Town of Ramapo. We believe the submitted pages to be legally flawed and fraudulent documents, which include minors signing the signature pages, and swearing to the validity of said documents demonstrates disregard and disrespect of the law, the governing bodies, the officials of the two towns and the residents. The petition states that all signers must be qualified to vote for town officers in the towns.

Challenges to the signature pages:

1. All the signature pages should be rejected because they are not numbered and any petition with more than 10 pages requires that all pages be numbered.
2. The first page of Section 2, the signature section of Exhibit C, is flawed because the Witness **did not indicate how many signatures were on his sworn Affidavit.**
3. On page 4 of Section 2, the signature section of Exhibit C, **signatory 2, page 6 signatory 3 and page 10 of Section 2 signatories 3, 4, 5 show the same handwriting. Thus it can be concluded that one person signed them all.**
4. On page 4 of Section 2, the signature section of Exhibit C, signatory 4: **the name printed does not match the signature name. (Meze - Mesli)**
5. On page 8 of Section 2, the signature section of Exhibit C, signatory 5: **the last name and the signature are illegible. Based on the way it is written it cannot be verified if such person lives at the address provided.**
6. On page 10 of Section 2, the signature section of Exhibit C, as pointed above in challenge 3, **signatories 3, 4, 5 page 10, signatory 3 on page 6 and signatory 2 on pg 4, show the same handwriting.**
7. Also on page 10 of Section 2, the signature section of Exhibit C, signatory 4: **last name does not match the last name in the signature. Which further presents the question of who really signed.**
8. On page 12 of Section 2, the signature section of Exhibit C, signatory 1 **provided non-existent address: 18 Falldman**

9. On page 12 of Section 2, the signature section of Exhibit C, signatory 4, **Zev Fisch, living at 16 Silver Terrace is actually listed in the provided list of regular inhabitants as a minor on page 18 of said list. (Section 1)**
10. Page 12 of Section 2, the signature section of Exhibit C, is also flawed because **none of the signatories provided a proper signature date: the year is missing on all five signatures.**
11. On page 13 of Section 2, the signature section of Exhibit C, signatory 4: **illegible name and cannot be compared to the signature.**
12. On page 15 of Section 2 of the signature section of Exhibit C, signatory 2 **Weisberger J does not provide a first name and at the provided address, 11 Gafen Ln, according to the list of regular inhabitants (pg. 12 Section 1) the only person listed with last name Weisberger and first name starting with "J" is a minor (Weisberger, Josef).**
13. Also on page 15 of Section 2, the signature section of Exhibit C, signatory 3 **Katz living at 190 Barnes Blvd does not provide a first name and furthermore there is no one with that name at the address provided (page 3 of Section 1 list with regular inhabitants).**
14. On page 16 of Section 2, the signature section of Exhibit C, signatory 3: **illegible**
15. On page 17 of Section 2, the signature section of Exhibit C, signatory 1 **Nuchem Hass does not live at the provided address 4 Feldman Cir. (page 5 of Section 1 list with regular inhabitants).**
16. On page 17 of Section 2, the signature section of Exhibit C, signatory 2: **name is illegible as well as 138 Barnes Blvd does not exist as valid address.**
17. On page 17 of Section 2, the signature section of Exhibit C, signatory 5: **illegible address.**
18. On page 21 of Section 2, the signature section of Exhibit C, signatory 1: **no first name provided/unclear first name.**

The below challenges are to the list with regular inhabitants. Let it be clear that points 2 through 10 question whether the 500 person residency threshold is met. Further, these occupancy numbers are considered unsafe by Town Code Enforcement standards. It could become more unsafe with new village standards.

Challenges to the list with regular inhabitants:

1. **On page 21 of the Section 1 of Exhibit C, the list with regular inhabitants, the address listed as 21 Silver Terrace, Kiamesha Lake does not exist. (it is a vacant lot without a structure therefore no one can reside there)**
2. **Out of an abundance of concern for the welfare of the residents at 210 Barnes Blvd. we would like to draw your attention to the fact that the dwelling is class 220 (two-family home) with 7 bedrooms, however, it appears that the list provided has four families residing there for a total of 29 people, possibly made into apartments as the Lorincz family lives in apt./unit 3 (Fried - 5**

ppl., Friedman - 6 ppl., Hocheiser - 3 ppl., and Lorincz - 15 ppl.) Pg. 1, 2 and 3 Section 1 Exhibit C.

This may be a very dangerous situation concerning the safety of the people in case of fire and it may be a violation. On the other hand it may also be an attempt to pad the list of residents. The aforementioned requires further investigation into the dwellings listed and the number of occupants provided for each dwelling. Below are some more examples.

- 3. **19 Gafen Ln. which is class 210 (single family home) with two families listed for a total of 20 people.** (Fisch - 10 ppl. and Fleigman - 10 ppl.) Pg. 8 and 9 Section 1 Exhibit C.
- 4. **24 Feldman Cir. class 220 (two family home) with 21 ppl total number** (Neiman - 5 ppl., Raab - 2ppl., Wertzberger - 4 ppl., Muller - 10 ppl.) Pg. 6, 7, and 8 Section 1 Exhibit C.
- 5. **35 Gafen Ln. is class 210 (single family home) with two families totaling 16 ppl.** (Fliegman - 12 ppl., Meth - 4 ppl.) Pg. 9 and 10 Section 1 Exhibit C.
- 6. **18 Gold Ter. Which is class 220 (two family home) made into 3 apartments with three families listed two of which have the apartment number provided on the list: Hass apt. 3 (4 ppl), Lorincz apt. 2 (3 ppl) and the Hoffmans (6 ppl).** Pg. 15 and 16 Section 1 Exhibit C.
- 7. **10 Silver Ter. class 210 (single family home) with total number of people 15 - three families** (Moskovitz - 3ppl., Lorincz - 4 ppl., Tarkieltaub - 8 ppl.)
- 8. **211 Barnes Blvd. is class 210 (single family home) with total number of people 11- three families** (Friedman - 2ppl., Lorincz - 3 ppl., Neiman - 6 ppl.) Pg. 1 and 3 Section 1 Exhibit C.
- 9. **256 Gibber Rd. (South Fallsburg) class 210 (single family home) made into apartments with Fogel (7 ppl) listed as living in apt./unit 2 and the Lebovits (8 ppl).** Pg. 13 and 14 Section 1 Exhibit C.
- 10. **18 Gibber Rd. (Kiamesha Lake) class 210 (single family home) with two families listed and total number of people 15 - (Itzkowitz - 9 ppl and Twersky - 6 ppl).** Pg. 13 and 14 Section 1 Exhibit C

It is clear that there are numerous flaws, inconsistencies, irregularities such as minors' signatures, non-existing addresses, names of people that are not regular inhabitants. We would like for the town supervisors and the town officials to take the above challenges into consideration and further investigate the provided list with regular inhabitants as well as the signature pages whether the names provided/signed are registered to vote in the Town of Thompson or Town of Fallsburg with the addresses provided on the list submitted by the petitioners. Please reject this proposal to incorporate a new village within our community.

Thank you.

Inclosed are 53 signatures of Fallsburg residents who are opposed to the Ateres Petition to create a new village.

There are petition irregularities. Unregistered voters signed the petition. Numerous others had the wrong address as well as other signature issues.

The petition itself did not conform to New York State requirements.

It is our hope that both supervisors deny the Ateres petition.

Proposed Village of Ateres

We, the undersigned, are residents of the Town of Fallsburg and Thompson.

We do not believe that the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. We wish to challenge the Petition as being legally deficient in multiple ways.

The pages allege to include 99 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town. An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE. 15 signatures seem to have been written by someone else. There are additional challengeable signatures with errors that the person did not use their lawful signature or did not use their full name or are illegible.

The petition was also improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

It is likely that there are maybe 52 qualified voter signatures, which is far below the 20% threshold required for the petition to be valid. It is clearly too small a number to indicate support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and parcels that would be absorbed by this Village. We request that this Proposal be denied for lack of a legally sufficient Petition.

Moreover we are extremely disappointed in the way Supervisors Rieber and Rappaport handled the petition. Notice of the petition and the town meeting for the local non-religious residents of this area was non-existent. No notices were published on town websites nor were residents mailed any notifications. Constituents had to fend for themselves.

Moreover we are extremely disappointed in the way Supervisors Rieber and Rappaport handled the petition. Notice of the petition and the town meeting for the local non-religious residents of this area was non-existent. No notices were published on town websites nor were residents mailed any notifications. Constituents had to fend for themselves.

Proposed Village of Ateres

We, the undersigned, are residents of the Town of Fallsburg and Thompson.

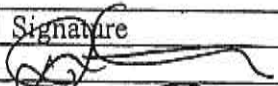

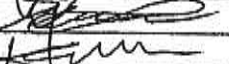

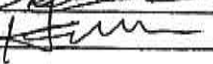

We do not believe that the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. We wish to challenge the Petition as being legally deficient in multiple ways.

The pages allege to include 99 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town. An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE. 15 signatures seem to have been written by someone else. There are additional challengeable signatures with errors that the person did not use their lawful signature or did not use their full name or are illegible.

The petition was also improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

It is likely that there are maybe 52 qualified voter signatures, which is far below the 20% threshold required for the petition to be valid. It is clearly too small a number to indicate support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and parcels that would be absorbed by this Village. We request that this Proposal be denied for lack of a legally sufficient Petition.

Moreover we are extremely disappointed in the way Supervisors Rieber and Rappaport handled the petition. Notice of the petition and the town meeting for the local non-religious residents of this area was non-existent. No notices were published on town websites nor were residents mailed any notifications. Constituents had to fend for themselves.

 TOWN OF FALLSBURG

August 23, 2023

Dear Ms. Rappaport;

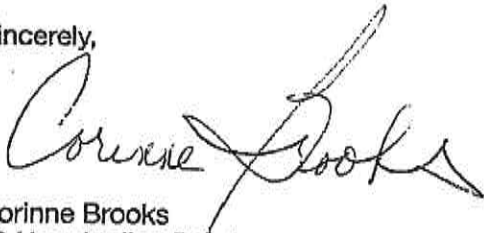

I am a resident of the Town of Fallsburg. I have lived here for over 20 years. I do not believe the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I wish to challenge the Petition as being legally deficient in multiple ways.

It was improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

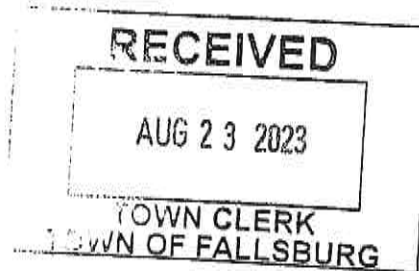

The pages allege to include 9 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town. An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE. 15 signatures seem to have been written by an alternate person. There are additional challengeable signatures with errors that the person did not use their lawful signature or did not use their full name.

It is likely that there are maybe 52 qualified voter signatures, which is far below the 20% threshold required for the petition to be valid. It is clearly too small a number to indicate support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and parcels that would be absorbed by this Village. I request that this Proposal be denied because the Petition is not legally sufficient.

Sincerely,

Corinne Brooks
39 Houghtaling Road
Hurleyville, NY 12747

To Whom it May Concern, Aug 23 2023

I am writing in reference to the proposed Village of Ateru. I was at the meeting last night. I hope there is a thorough investigation of what is being proposed. There are many questions about signatures, etc. I do NOT support this development of 929 acres.

Estelle Rosen
South Fallsburg resident
8 Echo Lake Rd

Hi Paula,

Received email objections, but they were not signed. I'm just checking to see if you received signed objections from the following individuals:

Allen McMickle
Sharon Zimmerman
Jean Gressang
Scott Lederman
Melissa Hendrickson (Reid)

If you did receive signed copies, please send them to me for my record. I am completing an index for all objections received, which I will send to you for review to make sure that all objections are on file in both Towns.

Pam.
We are required by laws to hold the hearing within the area to be incorporated as a Village. It was the only viable location presented to us.

This is a terrible law and the Governor (and many previous Governors) knows full well that it needs to be updated. We have to follow the law, opinions don't count.

Hi Bill,
Why are the meetings being held in a synagogue instead of at Thompson or Fallsburg Town Halls?
They know how to get to the town halls when they need to. I don't understand.

Subject: Hasidic Village

My name is Allen McMickle. I am a resident of the Town of (Thompson or Fallsburg) I have lived here for 12 years. I do not believe the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I wish to challenge the Petition as being legally deficient in multiple ways.

It was improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

The pages allege to include 99 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town. An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE. 15 signatures seem to have been written by an alternate person. There are additional challengeable signatures with errors that the person did not use their lawful signature or did not use their full name.

It is likely that there are maybe 52 qualified voter signatures, which is far below the 20% threshold required for the petition to be valid. It is clearly too small a number to indicate support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and parcels that would be absorbed by this Village. I request that this Proposal be denied for lack of a legally sufficient Petition.

Mr. McMickle:

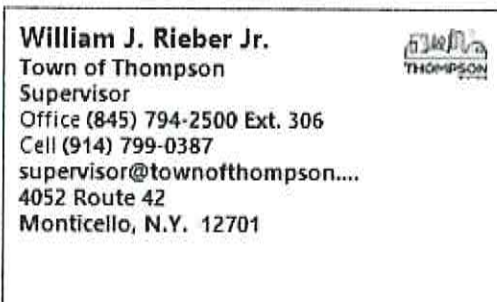

Thank you for your email.

Objections must not only contain your name and address but they must be signed as per the NYS law on Village formation. The hearing will close this evening sometime after 5:00 PM when it resumes at 169 Barnes Blvd, Kiamesha Lake. You may present your written objections in proper form up to the closing of the hearing.

Comments concerning the validity of signatures, etc. must be specific so that we can identify the signature you are referring to.

If you want to bring them to the Town Clerk's office in either Fallsburg or Thompson, they can be accepted there.

Thank you and I apologize for any inconvenience.

Subject: Tonight's public hearing

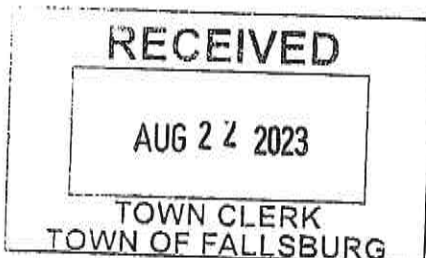

Good morning-

As a thirty year resident of the town of Fallsburg I felt the need to write a letter of concern regarding tonight's public hearing about the proposed village of Ateres. Of course, I have significant concerns as to the efficacy of the application as I'm certain many of the Fallsburg and Thompson residents have expressed, but I believe there is a larger issue at hand. It has been more than frustrating to witness the lack of foresight regarding the development that has occurred over the past several years for which this proposed village appears clearly linked. It is my hope that as supervisor you are continually assessing the long-term ramifications of this population explosion has and will continue to have on our town(s) and the county as a whole. And though it may be for naught, I wish that someone would make it clear how adding another village will affect the greater good of our community; how does adding an additional village in our town/county help the residents who are already here, many of which are already struggling to access and utilize the limited resources that presently exist?

I can appreciate your role and the challenges that you are faced with; might I suggest that the town improve its communication with residents about all types of information, events and issues not just robo calls regarding the weather, or social media, but some old fashion news and gatherings to communicate openly and collaborate ideas about the future of our community.

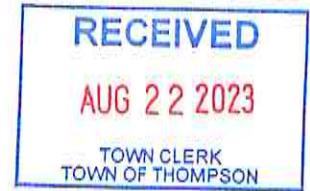

Respectfully,

Sharon Zimmerman

Re: Request to NOT consider petition re Ateres

My name is Nancy McCarthy. I am a resident of the Town of Fallsburg and I have lived here for 70 years, in Hurleyville. I do not believe the Petition for the proposed Village of Ateres is legally sufficient for approval by the joint decision of the Supervisors of Thompson & Fallsburg. I am one of the many long term residents who seek to challenge the Petition as being legally deficient in multiple ways.

It is obvious that it was improperly submitted because it has no page numbering which is required to effectively discuss signature challenges. All 21 pages are fatally flawed. The first page of the signature section of Exhibit C is also flawed because the Witness did not indicate how many signatures were on his sworn Affidavit.

The pages allege to include 99 signatures of residents who are "qualified to vote for town officers" in the two towns. This is not true. At least 23 of the individuals are not registered voters in either town. An additional 14 signatures listed addresses that do not match the voter information from Sullivan County Board of Elections and NYSBOE. 15 signatures seem to have been written by an alternate person. There are additional challengeable signatures with errors that the person did not use their lawful signature or did not use their full name.

It is likely that there are maybe 52 qualified voter signatures, which is far below the 20% threshold required for the petition to be valid. It is clearly too small a number to indicate support to create a new municipal structure that would have jurisdiction over so many of the neighboring residents and parcels that would be absorbed by this Village. I request that this Proposal be denied for lack of a legally sufficient Petition.

It is of concern that the meeting regarding this Petition was held in a Synagogue and not in a neutral place like Town Hall. This has discriminatory overtones, as if people without Jewish origins were not invited - all forums should have been non denominational.

Regards,
Nancy P. McCarthy
