

TOWN OF THOMPSON

PERMIT NO.

TOWN SUPERINTENDENT OF HIGHWAYS

Permit to lay and maintain drainage, sewer and water pipes under ground within a town highway, pursuant to Section 149 of Highway Law.

WHEREAS, _____, a resident or taxpayer in the Town of Thompson, whose address is _____ has made written applicant to the undersigned for permission to _____ across the town highway known as _____.

WHEREAS, the Town Board has consented to the granting of such permission;

NOW, THEREFORE, permission is hereby granted to: _____ to lay and maintain said _____

across said highway upon the conditions set forth and contained in Section 149 of the Highway Law and upon the further conditions that the work contemplated under this permit shall be commenced with 30 days from date and completed within 14 days of commencement of construction. During the progress of the work suitable barricades, signs and lights shall be maintained and that _____

will save the Town of Thompson, its Superintendent of Highways, agents and servants free and harmless from any liability on account of the execution of the work contemplated under this permit and the maintenance of said pipe.

The Town Superintendent reserves the right to revoke this permit upon failure to comply with any of the conditions herein contained, and/or contained in the application previously submitted and attached hereto and made a part herein of this permit.

Dated: _____

Superintendent of Highways
Town of Thompson

I ACCEPT the foregoing permit and agree to comply with all the terms and conditions thereof.

No street or highway will be accepted by the Town of Thompson as a Town street or highway unless the same complies with all the provisions of this article.

Work in existing Town streets.

- A. All work to be performed within existing Town streets or rights-of-way shall be subject to the approval of the Superintendent of Highways and shall be in conformance with these regulations. The contractor, developer or other such person performing the work shall be required to obtain a road opening permit and pay any and all such fees that may apply in relation to the same.
- B. The contractor or person performing the work shall be required to submit to the Town a certificate of insurance listing the Town of Thompson as additional insured (providing primary coverage), providing liability and property damage insurance with a limit of liability not less than \$1,000,000.
- C. All work shall be subject to the review of Town representatives, and the contractor or person performing the work shall schedule such work as to permit the necessary reviews and inspections. Where applicable, a fee shall be paid to the Town for such reviews and inspection.
- D. All work shall be in accordance with generally accepted and recognized guidelines and the specifications for road opening permit guidelines in effect at the time of the work.
- E. No street shall obstructed or closed from use without prior approval of the Superintendent of Highways. A minimum of one lane of traffic shall be maintained at all times. Appropriate signage, delineation and flagpersons shall be present during any construction operations. Work within the Town street or right-of-way shall be limited to Monday through Friday between the hours of 7:00 a.m. to 3:30 p.m., unless otherwise approved by the Superintendent of Highways.
- F. All firms, corporations, individuals or utility companies installing or owning utilities in the Town of Thompson shall, within 30 days' notice upon order of the Town Board, be required to remove or relocate any lines, poles or other equipment or improvements belonging to the firms, corporations, individuals or utility companies not dedicated to the Town or owned by the Town when the public interest of the Town demands or requires said removal or relocation for the installation of water, sewer, drainage, roadway or other public installations or improvements to be made or otherwise authorized by the Town of Thompson
- G. Any damage to an existing street occurring during the course of development of lands adjacent to the street shall be the responsibility of the applicant obtaining the building permit for the building that was the cause of such damage and shall be repaired to the satisfaction of the Superintendent of Highways prior to the issuance of a certificate for use of utilities or a certificate of occupancy. If such damage occurs during the winter months, the developer shall post a cash escrow to cover the cost of said repairs. Said escrow agreement shall specify a date by when such repairs shall have been completed. If the repairs are not completed by the date specified, the Superintendent of Highways shall have the authority to use the escrow moneys to complete the repairs

Interpretation.
